

Sacramento, Cal., March 22.—Although the state senate has passed the foreign committee's substitute for several alien land ownership measures, it is predicted to-day that the bill will fall of passage in the assembly, because of its chances for being buried in the final rush hours of the session.

PLAS-MON

The concentrated nutriment of fresh milk is so strengthening and so easily assimilated that a spoonful a day added to other food will supply anyone with the nourishment necessary to health. Be sure you see our window display.

CHICAGO PACKERS

MUST FACE TRIAL

DEMURRER HAS

BEEN OVERRULED

Judge Declares "Immunity Bath" Does Not Apply in Present Case

(Times Leased Wire.)

Chicago, March 22.—Ten Chicago beef barons were brought measurably nearer to jail here to-day, in case of their conviction for alleged violations of the Sherman anti-trust law, when United States Judge Carpenter overruled a demurrer to indictments against them and declared that the "immunity bath" of 1905 did not apply.

The packers affected are Louis, Edward and Chas. Swift, Edward Tilden, J. Ogden Armour, Francis Fowler, Arthur Meeker, Thomas Conner, Edward Morris, and Louis Heyman.

The indictments charge a criminal conspiracy by the packers who are personally accused. On conviction they would be liable to prison terms.

In overruling their demurrer, Judge Carpenter denounced the packers' contention that the 1905 immunity bath prevented prosecution on charges similar to those which the "bath" covered. He reviewed at length the prosecution of the packers in 1904 and held that it was easily possible to secure information of conspiracy from independent sources which the immunity grant could not bar.

"The immunity grant does not grant amnesty," said the judge. "It implies plea that improper evidence had been submitted to the grand jury who would demand that the packers be brought into court and a date for the trial be set.

The court also announced that if the government would demur to the packers' plea that improper evidence had been submitted to the grand jury who would demand that the packers be brought into court and a date for the trial be set.

SNOW AT MONTREAL

Montreal, March 22.—This district is to-day experiencing one of the heaviest snowfalls of the winter. Fully seven inches have fallen and there is no sign of a cessation. Traffic is delayed to some extent but no serious blockade is expected.

Too Late to Classify

FOR THE MOST POPULAR FORM OF ADVERTISING IN TOWN TRY THIS COLUMN

COOK STREET—For quick sale, 2 fine lots, \$1,800 each. Dalby & Lawson, 615 Fort street.

FOR SALE—A pretty home in Fairfield Estate. Particulars from Dalby & Lawson, 615 Fort street.

DAVEY STREET—80 feet by 135, a splendid building site, \$1,500. Dalby & Lawson, 615 Fort street.

WILL TRY TO MAKE NORTHWEST PASSAGE

Captain Bernie Will Visit B. C.
Ports If Trip Proves
Success

Ottawa, March 22.—Among the items
passed in committee of supply in the
House yesterday was one of \$59,000 "to
provide for maintenance of vessels em-
ployed in the patrolling of waters on
the northern portion of Canada, also
for establishing and maintaining police
and customs posts, mainland or islands,
as may be deemed necessary."

In explanation of this vote, the min-
ister of marine and fisheries said that
the government steamship Arctic was
now in northern waters on this mis-
sion. The instructions to Captain Bernier
were to try and make the north-
west passage, and if successful to con-
tinue around the Arctic coast towards
the mouth of the Mackenzie river,
where it was supposed American ships
were carrying on whale fishing and
making their headquarters on "Can-
adian territory." As in the past, Captain
Bernier would compel the masters of
these vessels to take out licences and
to pay duty on such goods as they had
on board for trading purposes.

The minister added that in the event
of Captain Bernier making good his
voyage through the northwest passage
he would continue through Bering
Strait and reach British Columbia
ports.

In reply to a question by Mr. Jamieson
(Digby) the minister said that the
revenue collected by Captain Bernier
from American whalers last year was
only \$500, but it was not so much the
matter of revenue as of asserting Can-
adian jurisdiction in these far northern
waters. In previous trips Captain Bernier
had planted the British flag on
many islands and headlands in the Arctic,
because it was thought if this was
not done, the day when the British
claim of these territories might be
made by the United States.

MISSOURI PACIFIC RAILWAY.

New York, March 22.—The directors of
the Missouri Pacific railway met here yester-
day and elected George J. Gould chair-
man of the board. The presidency of the
road was left vacant, but will be filled
soon. George Gould, Frederick Gates, E.
D. Adams, Edwin Gould, E. T. Jeffrey
and Cornelius Vanderbilt were elected to
the executive committee.

A special committee, consisting of
Gould, Gates and Adams, was finally
named to select a president for the Mis-
souri Pacific, subject to the approval of
the board of directors.

The changes in the road's official staff
removed all doubt that the Kuhn Loeb-
Rockefeller interests were in control. Geo.
Gould, Edwin Gould and Jeffrey represent
the Gould interests.

BIBLE PRESENTED TO KING.

London, March 22.—A special deputation
of laymen was received yesterday by King
George in honor of the 30th anniversary
of the publication of the King James
edition of the Bible. His Majesty was
presented with a specially prepared Bible.
Celebration of the anniversary will be gen-
eral throughout England next Sunday.

CHARGED WITH LARCENY.

New York, March 22.—Late yesterday
afternoon it was learned that three indi-
viduals had been returned by the grand
jury against William J. Cummings in con-
nection with the Carnegie Trust Company
case. He is charged with larceny in the
first degree in misappropriating \$5,000 of
the company's funds.
When arraigned Cummings, through his
attorney, pleaded not guilty, with the
privilege of changing his plea later. He
was released on \$50,000 bond.

Mistakes May Happen

to you,—as they do to everyone.
If you eat too fast, do not masticate
properly, or take food that does
not agree with you, digestive de-
rangements are almost sure to come,
and indigestion generally leads
to very serious physical troubles.

BEECHAM'S PILLS

relieve and cure indigestion. They
have a quick and tonic action on
the stomach and its nerves, and so
they give direct aid to digestion.
They carry away also the indi-
gestible matter. With their use
dyspepsia, hiccoughs, bad taste,
unpleasant breath and flatulence
disappear. You should be careful
and remember Beecham's Pills

THINKING THEMES

BY DR. FRANK CRANE.

The world is very stupid. We think
nothing is good unless it is rare. The
contrary is true; nothing is good un-
less it is common. The greatest pleas-
ures are those

that belong to all
men and all things. The
day-laborer can
eat and drink and
love his wife and
children and read

a book and play a
game of cards in
the evening with
his neighbors.

What more can
Rockefeller do?

The class that
enjoys itself most
is the class that
has to go to work
when the bell
rings. Those who
work when they please are usually
discontented. The workingman has
nothing to do but to hear himself
pitted that he imagines he is miser-
able and the rich happy. It is a mis-
take. The man with a hoe has a
sunnier face than the man with a
steam yacht. The laborer's real griev-
ance is not that he has no bread, but
that the other fellow has cake. But
cake is bad for the digestion.

There is more downright pleasure
in running a trolley car, or painting a
house, or carrying letters, or pound-
ing horseshoes, or laying brick, than
there is in eating frozen slush in a
ballroom, or trying to keep your dress
shirt from climbing out of your vest,
or stirring a torpid liver by chasing a
little ball with a stick over a forty-
acre lot, counting how many strokes
it takes to get it into nine small
holes. Work tastes better than play
to a healthy man, for a steady diet,
but he hates to admit it.

We cross the ocean to find what lies
at our doorstep. Diamonds and cham-
pagne and pate de foie gras only give
you the itch—for more. It is breath-
ing that is good, and eating, and
drinking, and kissing, and cracking
jokes, and the Day's Work. The com-
monest and cheapest is the best.

"Tis only Heaven that's given away.
Tis only God that's had for the
asking."

MORE TROOPS FOR MEXICAN GARRISON

Force at Hermosillo is Prepar-
ing for Attack by the
Revolutionists

Nogales, Ariz., March 22.—Anticipat-
ing an attack by rebels reported to
be headed toward Hermosillo, 150
Mexican federal soldiers reached here
yesterday en route to reinforce the
Hermosillo garrison. They left on a
special train, following the regular
passenger.

Captain Hartman, of the United
States signal corps, with about 100
men, left last night with a special
train for Hachita, N. M., to preserve
neutrality in case of a conflict.

Raid by Revolutionists.
Alpine, Texas, March 22.—Word was
received here yesterday from Deputy
Sheriff L. A. Farelle, of Chisno, Tex-
as, that a band of Mexican revolu-
tionists had raided that town and
driven horses, cattle and goats across
the line into Mexico. Citizens are
frightened, and ranchmen with their
families are flocking into Chisno. The
officer in command of the United States
troops in Marathon was asked for a
guard, but said he could spare no sol-
diers. The Alpine business men's club
has wired San Antonio for troops.
Chisno is six miles north of the Mex-
ican border.

Troops Dispatched.
San Antonio, Texas, March 22.—On
account of the news from Alpine that
Mexican marauders have crossed the
border near Chisno and driven away
cattle, General Duncan, commanding
the department of Texas, immediately
ordered a troop of the Fourth Cavalry
in El Paso and a troop of the Third
in Marathon, to proceed to Alpine.

The troops from El Paso probably
will detain in Marfa. From there
they must use their horses a distance
of eighty miles to the scene of the
trouble.

There is a warehouse in Chisno in
which much dynamite is stored.

Fight in Rebel Ranks.

Nogales, Mexico, March 22.—Word
has been received here that insurgents
on their way to Sonora via Santo Do-
mingo, got into a dispute over the
selection of a chief and that a fight re-
sulted, during which several men were
killed.

It is believed that the remainder of
the band, numbering thirty, were over-
taken by a federal force and that an
engagement took place.

The insurgent band consisted of
Mexicans, Americans and a few ne-
groes.

TARGET FOR BATTLESHIP.

Chesapeake Bay, Md., March 22.—Just
one round of firing from the great guns
of the battleship New Hampshire was re-
quired here yesterday to put the old bat-
tle-ship Texas, now the San Marcos, out of
commission. The guns were trained on the
San Marcos to test the new "detached
explosive" to be used in the navy. After
only one round had been fired, the San
Marcos was in an unseaworthy condition.

IN SEARCH OF HEALTH.

San Francisco, Cal., March 22.—Permis-
sion to go to the Philippines in an effort
to regain his health was yesterday granted
to Louis Glass, found guilty of bribery
in connection with the granting of a
franchise to the Home Telephone Com-
pany by Superior Judge Lawlor. Friends
of the Pacific Surety Company signed
Glass's bond.

Glass was convicted at the time of the
graft investigation of the Schmitt-Ruef
board of supervisors.

LADIES' "Burberrys"

Fresh Shipment

Unpacked Yesterday

"Burberry" stands for the
one perfect system of hy-
gienic weather proofing.
'Tis the coat which every
tourist loves, easy to slip
on and off, yet carries an
exclusive style feature so
much admired by all good
dressers.

"Burberry" gives protec-
tion in a manner closely
assimilated to nature's own
methods, exemplified in
feathers of birds and scales
of fish and provide cloths,
without rubber or other de-
leterious substances, which
have unequalled powers of
withstanding rain and cold
winds.

WARNING

We are the only house in Victoria which can buy ladies' Burberrys di-
rect from the factory. Every Burberry has the genuine stamp of the
makers sewn inside the coats—without this NONE are genuine.

From the tropics to colder latitudes, for winter
and summer sports and outdoor life generally, the
one attire which efficiently meets all requirements
is "Burberry." No matter how inclement the
weather a "Burberry" ensures perfect protection

WOMAN KILLS SON AND ENDS OWN LIFE

Believed to Have Fired Shot
During Fit of Temporary
Insanity

Walla Walla, Wash., March 22.—For
a reason that will never be known,
Mrs. George Wilcoxson, of this city,
shot her 23 year old son William and
then blew out her own brains with the
same gun. Neighbors heard the shots
but paid no attention to them, and as
the father was not at home the crime
was not discovered until yesterday,
when suspicions, aroused by the non-
appearance of mother and son led
to the search that revealed the murder
and suicide.

The woman left no note and her
friends know of no reason for the
crime. That it was a sudden attack
of insanity seems to be the only theory
of the tragedy.

Dishes, half washed, showed that the
woman must have been washing them
when the thought of the crime seized
her. The young man was still in bed
and asleep from all appearances, when
he was shot through the heart just be-
hind the ear. The woman then turned
the gun upon herself, and although
neighbors declare they heard three
shots, evidence of but two can be
found.

A shanty built of iron-wedges about one-
fifth less than a wooden vessel of the
same dimensions.

LOCAL NEWS

—Do not forget that you can get an express or truck at any hour you may wish. Always keep your checks until you have seen us, as we will save you the 10c on each trunk you have to pay to baggage agents on trains and boats. We will check your baggage from your hotel or residence, also store it. See us before you make your arrangements. We guarantee to satisfy everyone on price and the way we handle your goods. We consider it a favor if you will report any overcharges or incivility on the part of our help.

Pacific Transfer Company,
Phone 245, 60 Fort St.

—Cut Your Lawn. Cut it quickly. Cut it easily. Use a Woodysatt mower. It is easy running, durable and easy to regulate. Prices \$7.50 and \$8. R. A. Brown & Co., 1202 Douglas St.

—The bank clearings for the week ending March 21 aggregated \$2,768,528.

—Until Oak Bay grounds are in shape again the Frides will hold their Sunday baseball practices at the North Ward park.

—The wards are holding a meeting in the Government street club rooms tomorrow night to discuss various matters of interest to the season. All members are requested to attend.

—Jack Melville, the popular Scotch character and comic singer, is getting up a concert to be given in the A. O. U. W. hall on April 14. Mr. Melville is one of the best comic singers in the city, whose services are constantly in demand, and at this concert he will render some of his most popular successes. He will be assisted by several local artists.

—Building permits have been issued to James Walsh, stable on Hillside avenue, to cost \$400; Charles Cowper, dwelling on Collington street, \$3500; R. Sorenson, dwelling, Michigan street, \$1600; James Morisy, dwelling on Harbinger avenue, \$1950; A. E. Simmons, stable, Centre road, \$250; W. B. Rivercomb, dwelling on Haultain street, \$1,800; W. B. Rivercomb, two dwellings on Haultain road, \$1500 each; W. W. Carlow, dwelling on Mount Stevens street, \$1600; A. Johns, three dwellings on King's road, \$1500 each; A. B. Anderson, dwelling on Quadra street, \$1600; H. Bunting & Sons, dwelling on Richmond road, \$2500.

—Court Camosun, 2233, Ancient Order of Foresters, held its fifth quarterly meeting in the A. O. F. hall last night. This court, although a comparatively new one, has already a membership of considerably over two hundred and the officers and members are looking forward with hopes of seeing over three hundred on the lists before the coming summer. Nine new members were initiated last evening. After routine business a social was given, at which everyone enjoyed themselves to the limit. At the conclusion of the supper, a hearty vote of thanks was tendered to Secretary T. W. Hawkins, who was directly responsible for the social.

Lectures ON Theosophy

MR. C. INARAJADASA, B. A., Cambridge, Eng., and of Colombo, Ceylon, will give a series of free lectures on the following Theosophical subjects, in the Friends' Hall, 79 Courtenay street:

FERRY SERVICE

Victoria-Vancouver.
Princess Victoria leaves Victoria daily at 3.30 p. m., except Sunday, arriving at Vancouver at 3.15 p. m.; Princess Royal leaves Victoria daily at 11.45 p. m., arriving at Vancouver at 11.30 p. m.; Princess Adelaide leaves Vancouver daily, except Tuesday, at 10 a. m., arriving at Victoria at 2.45 p. m.; Princess Royal leaves Vancouver at 1 p. m. daily, arriving at Victoria at 6.30 p. m.

Victoria-Seattle.
Princess Adelaide leaves Victoria daily, except Monday, at 4.30 p. m., arriving at Seattle at 9 p. m.; Princess Victoria leaves Seattle daily, except Monday, at 10 a. m., arriving at Victoria at 2.30 p. m. On the over-day the steamer F. Viola, of the Alaska-Puget Sound Navigation Co., fills the schedule.

Vancouver-Seattle.
Princess Victoria leaves Vancouver daily, except Sunday, at 11.30 p. m., arriving at Seattle at 8.30 a. m.; Princess Adelaide leaves Seattle at 11.30 p. m. daily, except Monday, arriving at Vancouver at 8 a. m.

—Members of Court Columbia, Canadian Order of Foresters, will meet in the "Foresters' hall," Broad street, tomorrow evening at 8 o'clock. Initiation of candidates and other important business will be carried out.

—A pleasant social meeting was enjoyed by the members of Court Cariboo and Companions of Far West on Monday night. Interesting speeches were delivered by C. W. King and C. L. Plumb. An excellent musical programme was submitted.

—There will be a parlor meeting of the W. C. T. U. at the home of Mrs. L. Goodacre, 812 Pandora avenue, tomorrow afternoon at 3 o'clock. All members are requested to be present.

—The public health is exceptionally good for this season of the year. But four infectious cases are now being treated at the isolation hospital, all of them scarlet fever cases of a mild type.

—It is improbable that there will be a special meeting of the council this week. There will be the usual meeting of that body on Friday evening, and also a session of the board of works.

—There will be a meeting of those members of the local teaching staff who are on the entertainment committee in connection with the forthcoming provincial convention to-morrow afternoon at 4 o'clock in the office of the city superintendent.

—The current issue of the Canada Gazette contains a copy of a dispatch from the colonial office, interpreting the phrase in the table of precedence for Canada, "archbishops and bishops according to seniority." Rt. Hon. Lewis Harcourt states that he is advised that the phrase should be interpreted as signifying that archbishops, as such, should take precedence of bishops as such; that archbishops should rank among themselves according to date of appointment to the office of archbishops, and that bishops should rank among themselves according to date of consecration.

SCOTCH CONCERT.

The Caledonian Pipe Band will give another of its popular concerts on Friday evening in the A. O. U. W. hall. It will be assisted by some of the best local talent in the city, the programme being as follows: Mr. Ridgley, song; Miss Beck, solo; Mr. Pearson, song; Miss Harkness, solo; Wm. Walker, song; Miss Murray, Highland fling; Robert Morrison, song; Mrs. Staneland, solo; Wm. Galt, song; Joe McChung, song; Donald Cameron, Highland fling; Norman P. McDonald, bagpipe selections.

The dance programme will be: Grand march, Circassian circle, waltz, quadrille, patronella, Highland schottische, valetta, quadrille, two-step, lancers, extra, C. schottische, quadrille, waltz, ladies' choice, Scotch reel, home sweet home waltz. Miss Thain will have charge of the music. Refreshments will be served.

—Property will advance 100 per cent. in thirty days in Esquimalt.

—The lecture by Henry George, the single tax exponent, which was to have been delivered last night under the auspices of the Single Tax Association, did not come off, as it was found impossible to make the necessary arrangements.

—The C. P. R. will shortly publish a magnificent pictorial representation of Victoria which is being reproduced from a water color painting by the special artist of the Nation Publishing Company of New York.

—Over five hundred men are at present employed by the city on works being executed on the day labor basis. Large quantities of water pipes are being laid in various parts of the city, the sewerage extension work is being vigorously prosecuted and a new public wharf is in course of construction at the foot of Erie street, James Bay.

—Road work is being done by the city assessor, Wm. W. Northcott, who is being assisted by J. A. Griffith and A. H. Mitchell, in the preparation of the assessment roll for the current year. This year's figures will show a substantial increase over those of last year, higher values obtaining all over the city.

—It is expected that upwards of 150 candidates will submit themselves for the examination which is being prepared by the surveyor-general and the officers of the British Columbia Land Surveyors' Association. The examination, which includes preliminaries, intermediates and finals, takes place on April 4.

—St. Andrew's Society was en fete last night in the Broad street hall. A splendid musical programme was submitted, songs being rendered by H. Brunell, J. Melville, R. Morrison and J. Dobble. Little Miss Murray performed a pretty step dance and was presented with a daintily executed medal in token of appreciation. Miss Thain's orchestra furnished the dance music.

—Robert Grant, who formerly represented Comox in the provincial legislature, has recovered a valuable ring which he lost more than ten years ago at a garden party at Westlawn, Comox. On accepting an invitation to call at the home of Mrs. Charles Bridge he was presented with his long lost treasure, the ring, which had been made out of the first gold he discovered in the Yukon, upon which his fortune was based.

—In furtherance of the cleaning up programme recently inaugurated by the medical health officer, some 150 buildings have been marked for condemnation because of their insanitary condition, or because they constitute a menace to surrounding property. It will be necessary to secure an order from the court in each case, and the applications to this end will be made next week by the city solicitor. A further report from the medical health officer will be presented to the council at an early date.

—The usual bi-monthly meeting of Court Vancouver, No. 5755, A. O. F., was held in the Foresters' hall, Broad street, last night. The business meeting was somewhat prolonged owing to the initiation of several candidates. Several applications were also read. During the course of the evening a pleasant surprise awaited the court, an impromptu fraternal visit of Court Maple Leaf, who attended with Court Northern Light. Another feature of the evening was the wearing of their distinctive dress by the officers of Court Vancouver. The business meeting coming to an end a pleasant social time took place, Bros. F. Carne, Lee, T. Smith, Melville, and J. H. Trace contributing songs and recitations. Whilst also was an order of the evening. At the close of the programme refreshments were served.

ENGLISH INVESTORS TO VISIT VICTORIA

Party Represents Millions of Dollars in Quest of Extended Investment

Sir Edward Tennant, who has recently been raised to the peerage, and a party of prominent English capitalists are expected to be in Victoria on Saturday. During the visit of the party Sir Edward will be the guest of W. L. Coulson, general manager of the Canadian Collieries (Dunsmuir), Ltd.

The party recently arrived in Toronto from England and they are at present on their way here. It is understood that several millions of dollars are represented by their combined presence and that they are looking for extended fields of investment for the various concerns in which they are interested. Their object in coming to this part of the country is to inspect the Canadian Northern lines, and it is just possible that as a result of the inspection some big development may take place.

J. Leigh Wood, who is in the party, is a member of the London banking house of Brown, Shipley & Company. This house has also establishments in New York and Baltimore, and it is said to control an exceedingly large amount of capital. Mr. Wood is also a member of the Board of Governors of the Bank of England.

Marlborough E. Pryor is chairman of a life assurance company, which has tremendous money power. Mr. Pryor remarked to a friend while in the city that he was amazed at the growth of Canada, and he was convinced that English investors were behind the times in not having been interested earlier in this country. Mr. Pryor is widely known as a prominent chemist and entomologist.

F. R. S. Balfour is connected with the firm of Rowe & Pittman, members of the London Stock Exchange, and considerably interested in Canadian securities.

Ernest Anson, M. Inst. C. E., is a prominent mining engineer. Walter Hargrave Brown is a son of Mr. Alexander Brown, head of Brown, Shipley & Company. This house is the financial agent of Vancouver, and in the past five or six years has placed loans aggregating above \$7,000,000 for that city.

LUMBER CLAIM ALLOWED.

Mr. Justice Morrison has held that where boom sticks are loaned to a company on condition that the company move certain logs by way of consideration for the loan, and the company in moving the logs loses them, that the company is liable for damages to the amount of the loss of logs, boom sticks and chains.

The claim was made by the Wattburg Lumber Company against the W. E. Cooke Lumber Company, both of Procter, B. C., and the matter over which the action arose took place on Kootenay lake, where the two companies have mills. Defendant asked leave to borrow the plaintiff's boom sticks, and permission was given on condition that the plaintiff moved the logs contained in the boom a distance of 500 feet. In attempting to do so the defendants lost control of the boom and the logs were carried away. Plaintiff asked recompense to the value of property lost and Mr. Justice Morrison holding a contract was made has allowed the claim, the amount to be adjusted by the registrar.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, March 22—3 a. m.—An extensive low barometer area now spreading inland over this province is likely to cause a general rainfall over the Pacific slope, and fresh to strong southerly winds on the coast. The weather is fair and comparatively mild in the prairie provinces.

Forecasts.
For 24 hours ending 5 p. m. Thursday. Victoria and vicinity—Southerly winds, fair to-day, with showers to-night or Thursday.

Lower Mainland—Light to moderate winds, fair and mild to-day, with showers to-night or on Thursday.

Reports at 5 a. m.
Victoria—Barometer, 29.97; temperature, 35; minimum, 35; wind, 4 miles N. W.; weather, part cloudy.

Vancouver—Barometer, 30.00; temperature, 38; minimum, 34; wind, calm; weather, clear.

Kamloops—Barometer, 30.04; temperature, 30; minimum, 28; wind, 4 miles W.; weather, cloudy.

San Francisco—Barometer, 30.06; temperature, 48; minimum, 48; wind, 4 miles S. W.; weather, cloudy.

Prince Rupert—Barometer, 29.72; temperature, 38; minimum, 36; wind, 4 miles S. E.; weather, cloudy.

Edmonton—Barometer, 30.28; temperature, 22; minimum, 26; wind, 10 miles S. E.; weather, cloudy.

Winnipeg—Barometer, 30.47; temperature, 20; minimum, 18; wind, 12 miles S. W.; weather, part cloudy.

Victoria Daily Weather.
Observations taken 5 a. m., noon and 5 p. m., Tuesday:

Temperature.
Highest 62
Lowest 33
Average 42

Bright sunshine, 4 hours 24 minutes.
General state of weather, fair.

—Five million dollars to be expended in Esquimalt for dry docks.

—W. E. Scott, deputy minister of agriculture, left this morning for the mainland to join the farm demonstration train which the Washington State Agricultural College is sending into British Columbia to visit Fruitvale, Salmo, Ymir and Nelson. At the conclusion of the visit Mr. Scott will visit the Nicola district to select demonstration orchard sites.

—Bell Development Co., Ltd., wants to see you in Esquimalt from 10 a. m. to 5 p. m.

NEWS OF SPORT

BOUT IS ARRANGED FOR LOCAL BOXER

Joe Bayley Will Meet "Red"
Mofton, Who is Also
Making Debut

Although disappointed in his meeting with Munyer, which, as the promoters were not able to obtain a permit, was called off, Joe Bayley is bound to enter professional ranks and will make his debut in Vancouver some time in April. His opponent will be "Red" Mofton, a clever little 125-pound boxer, who won the N. P. A. championship last year.

Mofton has beaten everyone he went up against for a long time, his only defeat being at the hands of Harrison. The same may be said of the local lad, except as to defeat, for Bayley has yet to meet anyone who can get the best of him.

The bout will go for 15 rounds, and the result of it will be watched with great interest, as the two boys are so well matched. In age, experience and ability they are evidently on a level; they are commencing their professional careers together, and this will be the first time either one has fought in anything longer than a three or four-round no-decision "go."

Munyer, of whom there was so much talk awhile ago, has left town, and is now boxing preliminaries in Seattle.

VANCOUVER HORSE SHOW.

At a meeting of the Vancouver Horse Show directors it was decided that stallions can be shown in pony class and in classes 124 and 125. Another class was added for ponies, other than Shetland, not exceeding thirteen hands, three years old and over.

Vancouver enthusiasts assert that the show, to be held there from April

26 to 29, will be second to none in North America, with the exception of the one in New York. Horses are coming in from as far east as Calgary and big exhibits are promised from Spokane, Seattle and Victoria.

The following are the new prizes added to the list: Hotel Vancouver Trophy, the British Columbia Society for the Prevention of Cruelty to Animals, cash prize, \$100; the Clydesdale Horse Association of Toronto, cash prize, \$150; Messrs. P. Burns & Co., Ltd., trophy; P. Donnelly, Esq., trophy; D. C. McGregor, Esq., trophy; C. R. Ricketts, Esq., trophy; E. S. Knowles, cup; Dr. Dechert, of New Westminster, cup.

CHAMPIONS WILL MEET SHAMROCKS

Y. M. I. Basketball Team to
Play One Game Before
Meeting Duncan

The Y. M. I. basketball team, champions of Victoria, will be seen in action once more before they go up against the Duncan five on Saturday night.

They will play the Shamrocks tonight in the Institute hall, commencing at 8.30 o'clock. This match is one of the intermediate league games, but whether they lose or not it will not affect the Y. M. I.'s standing as far as the championship is concerned.

It promises to be an interesting exhibition, as Shamrocks have shown better form in each successive game played by them, and will put up a hard fight. If it does nothing else the game will be splendid practice for the champions.

The following are on the Y. M. I. line-up: Guards, Frank Sweeney and Hillier; centre, McDougall; forwards, Pike and McArthur. Bob Whyte will referee.

The Best Boys' Clothing in Canada Is the Lion Brand

The best styles. The best workmanship. The best values. The best wear. All suits have double elbows, double seats, double knees, double sewn seams.

We have a complete stock of Lion brand clothing in two and three-piece suits and odd pants; both plain and bloomer styles.

ROSTER OF PLAYERS AT LAST COMPLETE

Eleven New Arrivals Yesterday
—Practice Games at
End of Week

The roster is complete. Every player whom Householder expects to report has appeared and nothing is left but to weed out the crimpies. There are 24 ball-players in town and, judging by the way they shape up, if a baseball team which will make a good showing against the other teams in the league cannot be chosen from them, then the other clubs must have big leaguers in disguise.

Eleven men reported yesterday, among them five pitchers. Wattlelet and Householder are tickled to death with their pitching staff and say they have twirlers in the camp equal to any in the league. Householder put the whole thing in a nutshell when he said: "Give us a few weeks more of this good weather and we have the rest." He is not claiming the pennant, but at the same time is not by any means taking a back seat.

The new arrivals are as follows: Marshall, a pitcher who hails from Los Angeles and played in Mexico last season; Lane, pitcher, last season with Stockton in the State league; Thomas, a pitcher from Davenport, Iowa, in the Three Eye league; McCarthy, pitcher, with Spokane last year; McCreery, pitcher, from Montgomery in the Southern league; Malmes, a first baseman from Morenci in Arizona; Raymer, an infielder who played with Sacramento in the Coast league last season; Goodman, infielder, playing last year with Vernon and Cananes in Mexico; Riggs, infielder, last year with San Diego; Roche, catcher, also from San Diego; Hemenway, last season one of Seattle's catchers; Parks, outfielder, who played in Mexico last season.

From now on there is going to be a merry war for positions on the team. Malmes will give Clementson a hard fight for the guardianship of the first sack and Dashwood will have to look out for his place behind the bat, as both of the new arrivals, Hemenway and Roche, are hard to beat.

The fans should not forget that at the end of the week the practice games will be played. Both on Friday and Saturday the men will be divided up into nine and two fast games or ball are looked for. A twenty-five cent admission will be charged and the money taken in will go towards the training expenses. The games will commence at 3 o'clock.

SPORT NOTES

George Gray, the Australian billiardist, who recently made a new world's record at English billiards, with a run of 1,576, established another world's record on Saturday with an unfinished break of 2,194.

After a delay of at least fifty years, an agitation has been commenced in England to put more snap into cricket. The scheme of the Cricketers' Association is to make the bat narrower and the stumps higher. Followers of the sport charge that the game as played now takes too much time, and that "this fact alone has prevented it from taking and serious root in the United States, where keenness on games is every bit as much as in England and the colonies."

Hugh McIntosh, the Australian fight promoter, has announced his intention

ABOUT BASEBALL

Tris Speaker, the Boston outfielder, who was third among the batters of the American league last season, being distanced only by Ty Cobb and Lajoie, did some wonderful work at Recreation park, San Francisco, last week. In one game the first time he came to the bat he laid down an infield hit. The second time he put the ball into deep centre for a three-bagger. On his third trip to the plate he singled to left. On the fourth it was only a beautiful piece of fielding that cost him a single and on his fifth

any of the three positions from second to third. He is full of ginger and very fast on the green. Besides having plenty of nerve his work in handling both ground and thrown balls stamp him as a finished performer. His only weakness is at the bat.

The Chicago Record-Herald has this to say about two boys from the Northwest who are trying out with the Chicago White Sox: "Jess Baker, the stoical big fellow from the Northwest, put a lot of benders over and went from Duffy a world of praise. He will be one of the lucky men to stick for the big show unless all signs fail. There was no fence to stop the ball on the chapparral lot and Brinker sent one so far that he had made the circuit of the improvised base lines and taken a nap behind the diminutive grandstand that looks not unlike an aeroplane before the ball was fielded into the diamond."

Charles H. Morgan, of Cleveland, deputy United States marshal, wore the second catcher's mask ever made while playing on the Yale team in 1875, and caught Henry Avery, Yale pitcher, in an exhibition to show Yale professors that it was possible to curve a ball. Yale professors laughed when told that Avery could throw a curve," said Morgan. "They claimed it was against the law of gravity. We showed them. I stood behind a tree, with Avery 50 feet away. He couldn't see me, and I couldn't see him. He curved the ball around the tree and I caught it. That didn't satisfy them. They said something was wrong but they couldn't tell what it was. Mann, a Princeton pitcher, was the first college player to use the curve. Batters thought he was crazy. They couldn't figure out at first why they couldn't hit the ball. A man named Ting who caught for Harvard, invented the mask. He made two and sent me one to try. I sent it back to him. I decided I'd rather run the risk of being hit than wear it. It was made of wide iron bands. I could hardly see through the holes, and it was too heavy to take off when a pop foul was made. Ting reduced the size of the iron bands and the mask catchers wear to-day is the result. He experimented several years before he got what he wanted."

British Columbia's champion sculler, who will probably meet Lou Scholes, champion of Canada, on Shawnigan lake course this summer.

of coming to America this summer for the purpose of persuading Champion Jack Johnson to get back into the ring for a series of battles in London and Paris next fall. Sam Langford and Al Kaufman are said to be two of the men whom McIntosh is considering as suitable contenders against Johnson.

Promoter James W. Coffroth of San Francisco, announced that he has matched Ad Wolgast to meet Owen Moran in a battle for the world's lightweight championship, scheduled to go twenty rounds, in San Francisco on July 4. For this match Wolgast is guaranteed \$12,500.

At the race meet to be held here, starting on May 20, six part-mutual machines will be introduced. Ten of the machines will be fitted out at Vancouver.

Entries close at San Francisco at midnight for what promises to be the biggest dog show ever held on the Pacific coast. The exhibition is the 12th

secure national fame. Such, however, is the chance offered W. N. Kennedy, of this city, champion sculler of British Columbia and the Pacific Coast.

As was mentioned in the Times two or three weeks ago, Lou Scholes, champion of America and winner of the Diamond Sculls at Henley, is matched to race Des Brisay, of Nelson, and Lane, of Vancouver, at Nelson, on July 1. He will also race in Vancouver.

Local sportsmen, as soon as they heard of this, arranged to have Scholes appear here. When picking a contestant for him the choice naturally fell on Kennedy. Kennedy is young but is a finished sculler, and it would be interesting to see what kind of a race he would give Scholes.

It is planned to pull the race off on the Shawnigan Lake course some time in June, or at least before Scholes races in Nelson, which he will do on Dominion day. If the event here takes place after the one in Nelson, it will interfere with the N. P. A. regatta, which will be held in Portland about the middle of July and which the Bays always enter in full force.

occasion at the bat he slammed the ball into the left field bleachers.

If Dode Brinker, Vancouver's star pitcher last year, does not make good with the White Sox he will be returned for another year's seasoning with Bob Brown. Dode is doubtful himself about staying with the big leaguers as may be seen from the letter he wrote Brown. He says: "Well, I am still plugging along but it looks as if I had not an awful chance of chasing any of these old timers out of a berth. I honestly think I have been doing as well as any of them, but you know how it is. A fellow breaking in has to be a little better because the old men have the preference and get the call over the new man."

Dick Green, who played third base for the Vancouver club last year, and who is at present in the Cincinnati training camp, stands a good show to stick in the big brush in the opinion of Jack Ryder of the Cincinnati Inquirer. Ryder says, "Green can play

HALL WIN THE PENNANT?

CRITICAL Analysis of the Strength and Weakness of the Baseball Clubs in the Two Big Leagues as They Shape Up for the Season of 1911

ence that a year's development will make. McGraw looks better than Shafer. His outfield could be a little more piquant, but he has the same men, Murray, Devore and Snodgrass, with Becker to fill in. The team is capable of winning with a good pitching department, the weakness of last year.

That seems to be the Giants' relation to the question. After all, they are likely to have a comparative influence on the result. They are better, inasmuch as their two strongest opponents are weaker. Chicago and Pittsburgh have deteriorated, gone back.

The Cubs are getting rusty and in some places the bag is very bad and in others the bag is atrocious. The pitching department seems to be caving in, as a tree falls when it rots. Kling, too, is getting old. Chance will probably be on the bench next season, and Archer will have to go to first base, weakening the catching department. Cole is the best pitcher, judging from last season. The famous Brown with the missing digit was pulverized by the Athletics in the world's series. He is getting old. Steinfeldt, Evers, Tinker, Sheppard, Schulte, all are past their baseball prime. So that is the Cubs' relation to the question, and, while no direct prophecies will be made as to precisely who will win the pennant, it does not seem possible that this apparently broken down and

career. Never has the team been the same since. Wagner, Clarke and Leach, the life-blood of the club, are aging. The pitching staff is full of flaws. Clarke will have to start to build anew. And all this, too, looks encouraging to the Giants, as it affects their relation to the question.

Now, if you will step over to the American League. Watch out for that partisan rooster there. Whether the Yankees will be stronger or weaker this time depends largely on two things—Can Chase make good as a manager? Will the positions of third base and shortstop be as formidable as they were last year? Chase is the youngest manager in the big leagues, and the fact that he is a wonder is no reason why he can be counted upon to be a winning leader. He will have to be able to control men, to maintain harmony, an essential to the perfection of the "inside" game, and to settle petty quarrels and jealousies which arise from time to time among ball players, who fight for the centre of the stage with almost as much avidity as chorus girls. He is still untried by the tests

of characters the same indeed, the identical outfit, a duplicate of the pitching staff and the undisturbed catching department, not to mention the manager, "Connie" Mack, all of which mutilated the Cubs, the National League's best, last fall. Of course, if Coombs should "crack," "Eddie" Collins should go lame, Baker become a paralytic and Mack lose his mind, their rating in the Bradstreet's of baseball would deteriorate. Otherwise the Athletics should be there or in the vicinity when it comes time to decide who shall play in the world's championship series. That appears to be their niche when taken in relation to the vital question.

The Boston American League club has been on the fringe of hope for several seasons now, but has failed to climb any nearer to the top of things. It is a good ball team, well balanced and rhythmical in action, but it lacks pitchers—good, steady, reliable flingers. The polished products of the box are not to be found on its roster. To beat another club the Red Sox have to make eight or ten runs. Wood is good, but temperamental and easily worried. As for the rest of the pitching flock, there is not one who stands out prominently, of whom a manager could say, "He sure is some pitcher," the superlative compliment in the profession from the man who appreciates twirlers as are twirlers.

The Chicago Americans should be distinctly better this year. They have had a chance to get acquainted with Hugh Duffy, the manager, and his method; and Mr. Duffy has reciprocated. Most of the team were young and untried, lacking in experience, last season. The club was in the course of construction. That there was latent strength was evidenced by the spirit made by the team at the end of last summer, when no one thought that there was so much baseball voltage in the club. The nucleus was there, but the ball club had not yet been hatched. Last year it was in an incubator. In answering the question it appears that the White Sox should finish in the first division.

The remaining and undiscussed American League clubs do not hold out much hope to their supporters. The Cleveland team is always looked to for great things, but when the curtain goes up the club never quite gets its stuff over. Casting the eye over the club one sees no reason why the team should be at any higher elevation at the end of this year than in the last three or four campaigns.

Detroit may or may not. Stories filtered out of the Tigers' lair last season that there was no more harmony in the team than in a dance hall piano. As a matter of fact, that was just the trouble. Professional jealousies, too many "prima donnas" and too little co-operation reduced the speed of the team. Cobb was not speaking to Crawford because Tyrus said that "Sam" intentionally neglected to interpret the signals correctly and thus spoiled his base running. Jennings could never get his team exploding on all nine cylinders in unison. He had the men, but each wanted to play his own tune in his own way.

Detroit's Need of Harmony.

If Jennings can call a peace conference and arrange for a reciprocity agreement the club should be a pennant contender. Otherwise no. His pitching staff could stand strengthening, but for the rest he has a good ball club, and in Cobb a wonder, even though an exceedingly temperamental wonder.

Washington, first in war, first in peace and last in the American League, was the way that it went for some time. James McAleer improved the standing of the Senators last season, but he is not facing any future. He has a task before him to build a ball team out of the wreck he inherited.

St. Louis starts out under a new manager, the last occupant of the job having departed under a cloud when Lajoie made six successive hits on the final day of last season, which was necessary to give the Frenchman a glimpse at the automobile batting prize. Like a drooping flower, the St. Louis club will take a deal of sprinkling and nursing before it can again bloom. Wallace, with his long experience in baseball, should make a good leader. And then, anyway, unfortunately enough, some club has to be last.

To skip back to the National League, not omitting to be careful about the partisan rooster, the Cincinnati club is loaded with hope. Apparently, Mr. Griffith, sometimes called the "Old Fox," gained by his trade with Philadelphia. McQuillen, if he can be kept in the harness, is a good pitcher. More is fair, being something of a bad actor himself, while Grant is one of the best third basemen playing ball. Griffith has hitters and fielders on his club, and in Bescher he has the best base runner in the National League. Suggs is a rattling good pitcher; so that if Griffith is ever going to get anywhere near a pennant it seems as if his time had come to make the try.

Philadelphia does not appear to be so strong as last year, although Charles Doolin, the manager, allows that he was handicapped by lack of support from his cast, and that now, as a result of his trade which dispensed with several trouble makers, he will be able to inspire his men. If any one can, that burntop topped pepper shaker ought to do it.

Bresnahan has not done much as a manager to date, but, realizing that crying never lapped up any spilled milk, he is going at it again with all the vigor of his nature. In spite of his enthusiasm there does not appear to be any place higher than sixth or seventh reserved for his club. "Bill" Dahlen, like Bresnahan, has a club of youngsters and lots of hope. The Houston team has a crop of youngsters and that is about all.

So it will be seen that the changes rung in baseball are gradual. No team shoots like a skyrocket from the bottom to the top, nor does another club drop suddenly. Age, the luck of the game, and injuries to players have much to do with the ultimate outcome. Some teams just flake all over the ground for season after season, like a skyrocket without a stick. The Boston Nationals are a good example of this. Then suddenly a team will perk up under new management. What McGraw was to New York Tenney may be to Boston.

In these days, when stars are carefully guarded by the laws of organized baseball, and men of the best calibre cannot be bought, but must be developed or discovered, wasting their talents in some minor league side show when they should be appearing under the big top, the development of a team from a tail ender to a pennant winner is bound to be slow. Few stars are turned up by the draughting process, although that is the annual fountain of hope and inspiration. Out of the Southland comes tales each season of new found wonders. But if a manager gets one first class man out of all his minor league pickings he is satisfied. The Yankees were unusually lucky in this respect last year, drawing Ford, one of the best pitchers in the American League. The Cubs lifted "King" Cole, who proved to be a star, directly out of a tonorial parlor, where he was shaving whiskers off Terre Haute faces.

The teams have all been glanced at. The question remains, "How will they finish?" But the fan, that frothing, hysterical animal product of baseball, half man and half beast, the beast half assuming prominence when the umpire's judgment doesn't coincide with his own, is waiting for the season to start, ready to go off at half cock.

It is a wonderful game that can provide the excitement and thrill, the fights and arguments, the hopes and fears that it does. Every team has its apostles when the season starts, no matter how far down the scale it is placed. In less than a month the race will be on. Watch the fan as he sits on the edge of his seat, biting his nails, smoking black cigars, adging around as if he were watching his baby being murdered, or cheering as if his only son had been elected President. It is the game that makes all men kin, the great American leveler. Each has a right to his opinion which can afford the price of admission, and he exchanges it freely with his neighbor, be he passenger or railroad president. Day after day he sits there, caressing his hopes, fighting his fears, and every once in a while he jumps to his feet, sometimes out of his seat, tears off his hat and shouts, "Oh you, Matty!" "Slide, you! Slide!"

It is the fever in his bones. Women are not immune. Watch the fans at the ball park. The symptoms are apparent, not to be mistaken. Perhaps you are one yourself.

Changes in the "Yanks."

The right hand side of the Yankee infield might be represented by "X." The coefficient of efficiency of this portion of the team is still undetermined. "Jimmie" Austin, a man full of ginger, but a cipher with the bat, has been traded to St. Louis for Roy Hartzell, a player of uncertain potentiality. Chase has declared that he expects to put Knight, a seasoned man, on second base and hopes to fill the gaps at shortstop and third base with two youngsters, Orlin and Elliott. To some veterans of the game this seems to be a risky undertaking.

In the first place Elliott is left handed, and it is seldom that a southpaw shines any place in the infield except at first base. For some reason a man who throws left handed looks awkward in the infield and never appears to get his stuff across with the same facility that a right handed man does. Elliott comes with a good reputation, but he has never been out of the minors before, and a man may be a bear in the bushes and only a cub in the real managerie. It is much the same with Johnson. He is an importation direct from the lesser leagues, his last stand being in Jersey City. He is right handed, but unknown. Of course, Chase has Gardner and Hartzell to fall back upon, but, even so, that is like falling back upon a papier maché prop. This will also mean switching Knight back to shortstop again.

Watch the Fan as He Sits on the Edge of His Seat, Biting His Nails, Smoking Black Cigars

as a token of his course, or rather he was when this story went to press.

While Mr. Raymond has not yet been urged by any temperance societies to join them in their work, still he is doing honor to his alma mater so far. McGraw says that if Raymond will go dry he will be one of the greatest pitchers in the game.

"He has the old jump on the ball," said the little manager recently, "and his curves break with that sharp snap, the same of all pitchers. The trouble with him last year was that his fingers were so limp on account of his liquid associations that he had no influence over a baseball."

Drucke, with his year of experience, should be a winning pitcher this season. The rest of the pitching staff is very sketchy. White is distinctly a sometimes pitcher, while Crandall and the rest cannot be expected to attack their records above the mediocre. McGraw may pick up some youngster among his recruits, but the tales from the South of the prodigies called from the bushes with "fog" balls and "hair" balls and "hook" balls usually evaporate under the glare of inspection and the midseason sun. The precocious pitcher is seldom a reality.

A tale drifted out of the White Sox camp this spring, waited on its way over the wires by the correspondents, that a wonderful pitcher, with a wonderful curve, known as the "fog" ball, had been turned up. The idiosyncrasy of this curve is that the ball comes up to the batter plainly visible, like a heavy fog, but then it fades away like the mist before the classic sun, and, like the mist, cannot be hit. Critics declare that it is so hard to see that a batter needs an X-ray to find it, but this producer of wonders will probably be pitching in Laramie City again next season as regular as ever. The Giants' team is changed little except the differ

WILL CHEAPEN COST OF LIVING

VANCOUVER MEETING ENDORSES RECIPROCITY

Maxwell Smith Declares the
Agreement Will Not Injure
Fruit Industry

Declaring that reciprocity with the United States would tend to reduce the cost of living in British Columbia, as well as open up new fields for the exportation of raw products from Canada, a largely attended meeting in Pender hall, held under the auspices of the Vancouver Liberal Association Monday night, passed the following resolution:

"That this mass meeting of citizens of Vancouver places itself on record as being strongly in favor of the ratification of the proposed trade agreement between the Dominion of Canada and the United States, as facilitating increased and mutually advantageous commercial intercourse between two friendly and neighboring peoples, and as offering to each one extended markets for the products of the other, while at the same time it leaves to each perfect freedom in its political and national development."

John Riddington moved the resolution which was seconded by J. S. Smith. J. H. Senkler presided at the gathering and the speakers were Messrs. G. F.

Gibson, Maxwell Smith, Duncan Ross and R. J. Deachman. Speaking from the standpoint of the lumberman Mr. Gibson quoted from the proposed new lumber schedule to show that the Americans were to remove the duty on Canadian timber. This step, he thought, would give the Canadian lumbermen a fighting chance for the first time in the history of the industry. He said he thought that the arrangement might have been extended to cover the machinery used in the lumber trade.

Referring to the accusations said to have been made that those who were in favor of reciprocity were disloyal he added that in that case they were in the same position as Sir John A. Macdonald some years ago, as that distinguished leader of the Conservative party at one time proposed a reciprocal arrangement with the United States. To his own mind there was no need of all this hubbub about annexation and patriotism, said the speaker, and the talk raised by those opposed to the present treaty reminded him of the statement made by Ben Johnson that patriotism was the last resort of the second.

The position of China, which was new to the neighboring nations was, he thought, an illustration of what would become of countries which refused to enter close trade relations with other nations. When Canada joined the United States, it would be at the time of a general federation of the Anglo-Saxon race and she would join such a federation of her own volition and on the same footing as the motherland and the other colonies.

Maxwell Smith dealt with the fruit end of the proposed treaty. It had one fault from the fruit-growers' point of view, he claimed, and that was that while there was an arrangement relative to the interchange of the natural products there was none in reference to the manufactured articles used in the industry, such as machinery and so forth. He said he thought it would be a fine thing to have reciprocity on the

implements used by the fruit-growers so as to make the cost of production in Canada lower. The argument that the fruit lands of British Columbia needed protection from those of the American states, he characterized as absurd, just as much so as that they required the same protection from the orchards of Ontario. Mr. Smith gave trade across the line which he claimed as his opinion that the young or chards would nearly always bear more than the older ones. He read a resolution passed by the Fruit Growers' Association asking that the tariff on American fruit be not reduced and said his personal view was that the rates on the fruit of both countries should be abolished. Even in the berry market he said he thought that the home growers would find the change in conditions quite satisfactory and so far as the berry that the Americans would control the prairie markets went, he did not consider it serious at all as he controlled this market at present anyway and that because they were organized. If the Canadians in British Columbia secured the organization and business methods of their rivals in the fruit industry to the south they would soon secure possession of the market and the climate and the field. They had the climate and the field. The wages paid in Washington were about on a par with those of this province, while in Oregon the scale was slightly lower. He said he believed that the treaty would not tend so much to produce cheaper fruit but rather superior fruit.

On the broad aspect of Canadian nationality Mr. Smith contended that the bottom would certainly not be knocked out of Canada by reason of reciprocity with the United States. He added a letter from Hon. George E. Foster, remonstrating with him for having said that he, Mr. Foster, had opposed the treaty with Great Britain. A search of the records of the House had shown, said Mr. Smith, that Mr. Foster indeed had favored "mutual preference," which was no preference at all.

The speaker ridiculed the value of preferential relations with Great Britain and said that the value of the trade held by Canada with the mother country was proportionately small and that it would be foolish to neglect an opportunity at the door for the sake of a preference which was of value to nobody. The negotiation of this treaty, he asserted, would give the Canadian ministers a place among the greatest diplomats of the world and it would tend, as all desired, toward the national development of Canada, the fraternal unity of the British Empire and the peace of the world.

He went on to say that he thought the attacks on reciprocity were the same now as they had been fifty years ago. The question of trade did not need to affect the loyalty of any people, he said, especially a people who sent their goods to compete against the world in the British markets, and the world in the goods of the motherland a preference here of one-third. It was the Conservatives who were flag-waving at the present time because the protected interests were becoming afraid.

declared the speaker. Mr. Ross said he thought the price of living in British Columbia would be reduced by 25 per cent. He claimed that beef and mutton should go down 5 and 6 cents per pound, chickens 3 cents, oysters 25 per cent, and fruit about 50 per cent. This province especially would gain from reciprocity, bringing about a reduction in the cost of living.

R. J. Deachman quoted from the pamphlet of G. H. Cowan, M. P., entitled, "Better Terms for British Columbia," where it was stated that this province was entitled to a reduction in its tariff. Mr. Cowan, however, claimed Mr. Deachman, had voted against a lower tariff. The speaker contended that the Toronto pork industry would not be ruined by reciprocity, neither would Canadian wheat be sent east over foreign roads to any greater extent by reason of the treaty. The speaker closed by saying that this province stood to gain more than any other in the Dominion by reciprocity, and Canada itself could never become a great manufacturing country until the cost of production was reduced.

BRAKEMAN KILLED.
Olympia, Wash., March 22.—O. B. Moore, a brakeman on the Peninsular railroad operating out of Shelton, met a horrible death. While applying the brakes to stop a logging train that had lost its two rear cars by derailment, he was caught between the logs which a chain broke and a trolley log pierced him through the body. Although he was practically severed in two, he lived for a minutes, until his fellow-workmen were able to extricate him, when he died.

derailed cars moved out of the way and an engine hooked onto the rear car of the train, so as to pull the cars apart.

WOMAN SUFFRAGE DEFEATED.
Des Moines, Iowa, March 22.—By a vote of 27 to 23, the state senate here defeated the Allen bill, which was framed to grant equal suffrage to women.

IF I HAD ECZEMA

RAILWAY PROMOTER DEAD.

Boston, March 22.—Nathaniel Thayer, for many years known as one of the foremost railroad promoters in America, died here yesterday. He was a director of the New York, New Haven & Hartford railroad, of the U. S. Steel Corporation and of the American Telephone & Telegraph Company, and many other financial institutions.

Eighteen per cent. of the entire area of France, or about twenty-three and a half million acres, is forest land.

Watch for the Seal

of the Faultless Flour

Particular people can't help buying. Actually we wash every kernel of the wheat it is made from. It is cleaned by separators—that is done at most mills—then it is dry scoured, but even that isn't enough. So we actually wash it to remove any possibility of impurities from the grain. This cannot be done at the ordinary mill. It takes too much power. It is too great an expense. That is another reason why SEAL is ALBERTA is a purer, better flour.

Now the wheat is washed in warm water. That enables us to bring it to the right temperature before milling, and the process can be carried on for Esquimalt wheat at a certain temperature. That is the reason why you should buy SEAL ALBERTA, PLEASE.

Remember That All Corn

Flakes are not "Kellogg's." There are many imitations. Only by our method—a secret process—is it possible to transform the tender, sweet-heart of the corn into a food that combines the flavor, richness, nutrition and digestibility of Kellogg's Toasted Corn Flakes.

You owe it to yourself and family to insist upon KELLOGG'S Toasted Corn Flakes. See that you get it.

MORE FRENCH TROOPS
SENT TO MOROCCOWill Assist the Sultan in Keep-
ing Turbulent Tribes
in Order

(Times Leased Wire.)

Paris, March 22.—Two thousand ad-
ditional troops boarded transports to-
day for Morocco, where they will join
the present French army of occupation,
numbering 4,500, in protecting French
commercial interests.The officers have orders to co-oper-
ate with Sultan Mulai Hafid in keeping
the turbulent tribes in order. The gov-
ernment has also guaranteed a loan of
\$2,000,000 made by the Bank of Mor-
occo to the Sultan, to be used in or-
ganizing a force of 5,000 natives and
soldiers of fortune to maintain Mulai
Hafid's authority.

HOLD OUT FOR REFORMS.

Mexican Rebels Determined to Retain
Army Until Demands Are Granted.Mexico City, March 22.—Minister
Jose Yves Limantour, the man heralded
as the one who would bring peace to
Mexico, has held conversations with the
president since his return, but no an-
nouncement has been made. It is pos-
sible that a statement will be made, but
unless two things are agreed to, there is
little hope of peace.Unless the government agrees to
provide for another national election
and to permit the rebels to retain their
arms while carrying out a truce, there
can be nothing but a continuance of
the fighting, according to the rebels.
Many entirely loyal to the federal gov-
ernment believe this is true.Already the government has shown a
disposition to alter conditions materi-
ally. General Diaz has announced that
he contemplates reforms, but for the
most part they will not be placed in op-
eration until after the close of the rev-
olution. In this classification comes
the proposed measure for the subdivi-
sion of the great estates.It is no secret that the grievances of
the revolutionists extend to the gov-
ernors of many states and far below them
to the jefe politico, the rulers of small
communities in rural districts. The
government has exhibited a disposition
to make changes in the ranks of the
governors, though not all have been
made because of dissatisfaction with
those executives. A few changes have
taken place because of the illness of
old governors. It is said, and in the case
of Governor Ahumada, the change will
be made largely in the hope that he
would make a better executive of Chi-
huahua because he held that position
many years ago.This shifting of officials is gratifying,
say the rebels, but not adequate. It isthe protection of the franchise that un-
derlies the motives of the revolution-
ists, according to those in touch with
their campaign. Anything, say these
men, that the government does, which
falls short of providing for general
elections, and first of all, for a national
election, will not be sufficient.Minister Limantour's admonition to
"rally around General Diaz," and his
warning that every day the revolt con-
tinues would bring nearer foreign in-
tervention, have not served to create a
more optimistic point of view.President Taft's explanation of the
mobilization of troops made to Amba-
sador De La Barra and by him com-
municated to Minister Croel in a mes-
sage, allayed all suspicion regarding
the intention of the United States. Mr.
Croel said Ambassador De La Barra
telegraphed he had been given new as-
surance by Mr. Taft of the friendly at-
titude of the United States toward
Mexico and of his personal regard for
President Diaz.

NEW TYPE OF LINER

Motor Boat of 5,000 Tons Gross Is
Now Under Construction on
the Clyde River.There is at the present time under
construction on the Clyde an entirely
new type of motor boat. As planned,
it will be about 5,000 tons gross and
7,000 tons dead weight. The new
feature of this vessel is the propelling
machinery, consisting of two sets of
combustion cylinder engines of the
Diesel type, with improvements which
overcome the initial difficulty in start-
ing and reversing the engines. Though
propelled by twin screws, her speed
will be only 12 knots. Another
smaller engine of the same type will
be used to generate electric power to
drive the winches, the steering gear,
and windlass, as well as for lighting
the ship. The advantage claimed for
the Diesel type of engine is that it
can be operated with the cheapest
quality of oil. The charge is ignited
by compression, obviating the neces-
sity of magneto or spark, and to
start the engine requires but five min-
utes, a difference of about 15 hours in
comparison with raising steam by
means of boilers. It is estimated that
100 tons of oil will be equivalent to
300 tons of coal for steaming pur-
poses, and that the space required for
fuel will be about one-fourth that re-
quired for coal. Specially constructed
tanks for oil are planned, and the ves-
sel will have no boilers, no funnels,
and no coal bunkers, but arrange-
ments allow for the accommodation of
a limited number of passengers.

DETECTIVE SLAIN.

Danville, Ky., March 22.—Violence in
connection with the strike of white
firemen on the Queen & Crescent route
broke out again yesterday afternoon,
when Oscar Spaeth of Chicago, a de-
fective employed in guarding strike-
breakers, was shot and instantly killed.
Spaeth was doing guard duty on a
freight train.—Only one sub-division for sale in
Esquimalt.

Queen's avenue and eighty feet on
Chambers street, and will stand
twenty feet back from the street line
on both thoroughfares, thus standing
in its own grounds. It will containthirty-two bedrooms, all outside
rooms, with hot and cold water, a
lounge room, ladies' parlor, and will
be steam-heated and thoroughly mod-
ern in every way. The building will
cost \$15,000.In taking the sacked coal from the yard
made a practice of taking a few sacks
too many and disposing of them to
customers of his own and retaining the
money received.Mrs. Jeanne W. Slimming, 514 Here-
ward avenue, gave evidence that the
accused had delivered half a ton of coal
to her, and had asked her to take an
odd sack, which she did and for which
she paid him cash.Pooney Singh, a Hindu, employed as
sacker at the coal yard, said accused
in taking his orders frequently took
more sacks of coal than the order called
for. He was being cross-examined
when the need of an interpreter arose,
and his evidence was discontinued un-
til to-morrow morning.Detective Heather told of an investi-
gation he had made on behalf of the
firm. He had been told that the Fair-
view Greenhouse Company had been
about to pay a coal bill of a consider-
able amount to the firm when they
were told they had been shortweight-
ed. The collector was then referred to
J. P. Mann, solicitor, and from the sub-sequent investigation a Hindu employ-
ed at the coal yard had been taken to
police headquarters and held for some
hours. The case is continuing. Frank
Higgins appears for the prosecution,
H. A. Maclean, K.C., for the defence,
and J. P. Mann for the Fairview Green-
house Co.

REFUSE HALF MILLION.

Nelson, B. C., March 22.—A syndicate
of American capitalists have made an
offer of half a million spot cash to
Wolverton & Co., for the 41 timber li-
censes held by the Sunset Mills, Ltd.,
in which the shareholders are largely
Nelson and coast capitalists, and at a
meeting of the shareholders held here
the offer was refused by a vote of four
to one, it being decided to hold the prop-
erty at the original price of \$600,000.The limits are located on the Adams
river, on the inside shore of Vancou-
ver island. The price offered, although
less than that at which the limits were
held, was so large that the directors de-
cided to call a meeting of the share-
holders to discuss the matter. About
70 per cent. of the stock was represent-
ed in person or by proxy at the meet-
ing.

CONVICTED OF MURDER.

Lewiston, Ida., March 22.—The jury
in the trial of Robert Worth, charged
with the killing of William V. Mc-
Laughlin several weeks ago, brought in
a verdict late last night of guilty in the
first degree. Judge Steele will pass
sentence to-morrow.Worth takes his conviction cool and
is apparently the most unconcerned.
He killed McLaughlin while he and the
victim and several friends were enjoy-
ing "an alcohol party."

PASSING SHOW

Romano Theatre.
The Secret of the Palm. Cecil is the foreman of the Canby ranch in Cuba and also a favorite for the hand of Edna, the daughter of the ranchman. The mother, Alvarez, an old time friend of Cecil's, sends her son to enjoy the host of her schoolmate of years ago, who has been in the army and is now a doctor. He also notes her love for the handsome foreman and plots to entrust with the mail bag.

and two comics, "The Warwick's Chronicle" and "Mr. Long Whiskers and His Nephew." The Romano orchestra with its latest and most up to date music complete one of the best programmes ever seen in Victoria.

Crystal Theatre.
The anticipation of the Crystal theatre management has been realized to the fullest extent. In augmenting each show to five reels, and through the engagement of Herr Nagel as pianist, the attendance at last night's performance almost doubled, compared with previous days. The idea of the management not to alien any expenses in catering to the public's favor has borne fruit, and the patrons may look forward to the very best which can be offered. Herr Nagel received a flattering ovation after each overture, and his incl-

and the situations are remarkable for their fine settings and skilful and artistic acting. "Saved By Divine Providence" is another fine film showing how a lost child is again united to its parent. "All is Fair in Love and War" is a comedy showing how some madcap young people played a trick on a maiden lady and a bachelor, sending different letters to each one, appointing a different trysting place. The rain comes down, and they both take cold and all is over between them henceforth and forever. "It Did Look Suspicious" is a case of circumstantial evidence in which a man's carelessness leads him to accuse an innocent party of committing a crime which is purely his own doing and for which he has to take the blame and acknowledge his fault. "Heart Beats of Long Ago" is a biograph romance delicate and sentimental.

New Grand Theatre.

Descriptive of the flight through the air in the Wellman airship America at the end of last year, Jack Travin's lecture at the Grand this week is a drawing card. Everyone is hearing the intrepid lecturer, who interests from the entertainment as well as the scientific and adventurous side of life. The act is drawing the attention of all classes, even clergymen speaking of its marvellousness. George Palmer Moore and Florence

SCENE FROM "THE ARCADIAN."

latest musical comedy comes to the Victoria Theatre to-morrow evening with the full New York cast and setting. The scene represents "Simplicity" and the show girls at a track.

idea away to the post office. The hard steals the mail pouch from the postman, but finds his mother has him money and that it is in the tree. He climbs the tree only to look down and see Edna and Cecil below. In his excitement he loses his grip and falls, trying with him the stolen bag. He found dying and carried to the ranch owner's house. When faced with his crime fully confessed and Cecil is restored his former standing.

The Cattle King of Arizona is a fine Powers drama, true to life, addition to these films will be seen "Madagascar," a great historical play.

dental music was most appropriate. His rendition of Schumann's "Traumerei" on the organ, incidental to one of the prettiest pictures ever shown on the screen (The Christmas Lecture) was one of the features of last evening. Lovers of music will do well to hear Herr Nagel's interpretations of classical and modern compositions.

Majestic Theatre.
A fine historical drama is presented with the new bill for Wednesday and Thursday, entitled "Katherine Howard," the unhappy daughter of the Duke of Norfolk, who married King Henry VIII, and was executed by her royal husband. This merry monarch is shown in some of his historic moods.

Elliot give a matrimonial playlet, where "A. Celler" and "Miss Whiting" get mixed over baby grand pianos and babies, and end in a riot.

The Hall Bros. are marvellous athletes; Biglow and Campbell, synopsized songsters, show an act new in this part, and Haskell and Miss Renaud are musical comedy stars, featuring clothes and the dress of 1,000 mirrors.

London Bioscope.

At the Victoria theatre to-night the London Bioscope resumes its entertainment, but with an entirely new series of eight moving picture films. There will be no pictures to-morrow night, but Friday and Saturday the pictures are billed. The list contains a remarkably fine film "Behind the Scenes of Cines Stage," and there are in comic dramatic and adventure films, "The Terrible Pearl," "Mateo Falcone," "Saved by Her Dog," "Absent-Minded Doctor," "Ruins of Carthage," "Golden Gates and Angel of the Bower." The first picture is shown at 8 o'clock, and without an intermission, except to change the films, the show continues till 10 p.m.

JAPANESE IN SOUTH PACIFIC.

Melbourne, March 22.—The flow of Japanese immigration southward in the Pacific ocean continues to give rise to apprehensions in Australia. The latest display of the activity of the yellow race as settlers has been discovered in New Caledonia. Visitors to the island who have returned here declare that the number of Japanese there has increased so rapidly that they bid fair to outnumber the French. The Orientals are chiefly war veterans who have completed their term of service with the army.

The time used is Pacific Standard, for the 12th Meridian, west. It is counted from 8 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. The height is in feet and tenths of a foot, above the average level of the lowest low water in each month of the year. This level is half a foot lower than the datum to which the soundings on the Admiralty chart of Victoria harbor are reduced.

A Hundred Hints For Well Dressed Men

IN THIS DISPLAY OF SPRING SUITS AND OVERCOATS

Every style is a creation. Every garment is a masterpiece. The man who spends half an hour with us, will see everything that is new and correct for spring wear.

Fit-Reform Suits and Overcoats show what changes have been made over last year's garments. Go over the new styles at your leisure. Examine styles—compare fabrics—see shades and colors—try on garments—and familiarize yourself with just what is right and proper for spring wear.

Make Fit-Reform criterion. We cordially welcome your inspection of this display of Fit-Reform Suits and Overcoats for spring.

ALLEN & CO.

New Address, 904 Government St., 2 Doors North of P.O.

FEAR SUBMARINES.

Complaints of extensive damage to gear and loss of fish by the manoeuvring of torpedo destroyers and submarines close to the fishing grounds between Benbow and Juanos have been made to the Admiralty by fishermen at Eastern Point, Tlic of Wight, through the Southern Sea Fisheries Board. It is alleged that the craft drive fish from the bays, and the proprietors out of the "catch" of nets, lobster and prawn

pots, resulting in tremendous loss of gear and fish.

DUBLIN'S LORD MAYOR.

Chief Magistrate Will Get Eighteen Thousand Dollars a Year.

When the salary of the Lord Mayor of Dublin for the year which began February 23 was reduced by a resolution of the corporation on November 18, 1910, from \$18,000 a year to \$16,000, several members of the

city council declared that the resolution would be rescinded within a month. They were wrong, for the resolution lasted two months. It was recently rescinded and the restoration was justified by the same argument—that the continuance of the existing state of affairs would add to the distress among the poor of Dublin.

DIES IN CELL.

Winnipeg, March 21.—James C. Patter-

son, 35, a switchman on the Canadian Northern, died in Winnipeg police station last night. He was picked up on the street by a constable and lodged in the cells as drunk, where he died soon after.

The Evening
Chit-Chat

BY RUTH CAMERON

RUTH CAMERON

Friendship is
the supreme tie.

It is stronger even
than the bonds of
blood, as we see
in the case of

Jonathan who
stood by his
friend David even
against his own
father. When
two hearts have
become one in the
mystical union of
friendship, that
relationship

should mean more to them than any
matter of circumstance, fortune or
individual benefit.

In a sketch of the life of Clarence
Stedman, a man whose name this
generation may not recognize, but
whom their fathers will surely re-
member as the famous "Chit-
chat" occurs this sentence:

"Amid all discouragements he
kept the friends of his youth."

It is surrounded by many more ob-
viously flattering remarks, but to me
it is as high as any praise his
biographer gives him.

Says Anne Thackeray Ritchie: "I
often find myself going back to
Darwin's saying about the duration
of a man's friendship being one of
the best measures of his worth."

With all my heart I agree with that.
Indeed, I scarcely see how there could
be a better test.

Beware of the man or woman
whose friends are all of too recent a
vintage. It makes no difference how
highly they speak of him. Praise is
not enough unless it be backed by
knowledge. Where is his old friend?
Why is his voice lacking from this
symphony of praise?

Find that out before you accept
him at the valuation these newly
made friends would put upon him.

As an interesting experiment, why
not reckon how it would fare with
you if you were tried by Darwin's
test? Run over your list of friends
and see how many there are of ten
years' standing? of twenty years'
standing? of school day making?

Of course, many times it is the ac-
cidents of circumstance and distance
and widely diverging interests, rather
than change in character that sepa-
rates us from our old friend.

But if the friendship be what we
thought it when we formed it, a heart
friendship and not a mere affair of
convenience, can we afford to let it
lapse?

Of course, in the hurry of business
and social life, the line of least re-
sistance is all too often to let the
genuine old friend slip gradually out
of our lives and try to fill his place
with two or three acquaintances of
convenience.

But every man or woman who does
that, is selling his birthright for a
mess of pottage.

Friendship, love and toil—these are
the greatest things in life and he who
willingly dispenses with the joys of
any one of them misses a third of
the happiness the fates intended for
him.

Where is that old friend in whose
companionship you once found such
content and inspiration?

Can't you take the first step this
very night toward picking up the
threads of your friendship?

And don't you want to?

Ruth Cameron

SOCIAL AND PERSONAL

Miss Phyllis Green is visiting friends
in Vancouver.

Parker Williams, M. P. P., Newcas-
tle, was in the city yesterday.

Mayor Charles F. Lindmark, of Rev-
elstoke, is at the Empress hotel.

Mrs. D. N. McIntyre, "Ballyhean,"
Dunsmuir road, will not receive to-day.

D'Arcy Tate, solicitor for the Grand
Trunk Pacific Railway, has left for the
east.

Mrs. R. G. Jackson, Tacoma, is vi-
siting Mrs. F. G. Richards, 1245 Fort
street.

Hon. William R. Ross, minister of
lands, left last night on a short visit to
Ferne.

Hubert E. Cook, Gordon Head, has
returned from an extended visit to
England.

Mrs. Harry Briggs will receive at
her home, 625 Niagara street, this af-
ternoon.

The non-commissioned officers will
give a dance this evening at 8 o'clock
at Work Point barracks.

Dr. and Mrs. Griffith, the latter a sis-
ter of Mrs. A. E. Bull, have taken up
their residence in Victoria.

Mrs. J. C. Davis, after spending last
week with her mother, Mrs. Downey,
North Saanich, returned home yester-
day.

W. Phillips, manager of the Winni-
peg Street Railway company, accom-
panied by his wife, are guests at the
Empress.

James Ellison, a younger brother of
the minister of finance and agriculture,
has arrived from the Old Country and
will take up his residence in the Okan-
agan district.

The dancing club have arranged to
hold a fancy dress ball masque in the
Broad Street hall on Thursday, March
23. The following ladies will act as
chaperones Mrs. P. A. Irvine, Mrs. L.
A. Genge, Mrs. C. T. Cross and Mrs. E.
E. Blackwood.

The engagement is announced of
Hamar Greenwood, one of the Cana-
dian-born members of the British
House of Commons, and Miss Marjorie
Spencer. The wedding will take place
this summer and Sir Wilfrid Laurier
will be among the guests.

On Wednesday, March 8, at St.
Luke's church, Cedar Hill, the marriage
took place of Mr. George Clark, eldest
son of Mr. Watson Clark, Oaklands,
and Miss Alice Emily Dearnley, of Lan-
don, Eng. Rev. H. A. Collison offici-
ated.

Mrs. Rocke Robertson has returned
from Little Rock, Ark., where she has
been spending the winter, and will now
pay an extended visit to her son, Dr. A.
Rocke Robertson, Des Moines, Ia.,
reaching Victoria again in April. Miss
Eberts, who has been spending the
winter at Little Rock, is planning to go
east for the summer.

On Tuesday last the marriage took
place at the home of the bride's
parents, Mount Pleasant, Vancouver, of
Mr. Carl Jacobson and Miss Nellie
Ward, daughter of Mr. and Mrs. W. R.
Ward. Rev. J. W. Woodside, Mount
Pleasant Presbyterian church, offici-
ated. The bride was handsomely gowned
in cream silk cashmere with a tunic
trimmed with cream lace ornaments
and carried a shower bouquet of white
carnations and asparagus fern. The
fluffy tulle veil was held in place with a
wreath of orange blossoms. Miss Etta
Ward, bridesmaid, was gowned in blue
voile with silk trimmings. Little A-
gnes Ward, sister of the bride, was the
flower girl and wore a French dress of
Persian lawn with pink hair ribbons
and pink sash, and carried a basket of
pink carnations. Mr. Robert C. Ward
was best man. The bride's travelling
costume was of navy blue chiffon
brocade with black hat trimmed

SYMPHON FOR CREAM.

Takes the Top-Off Milk From Any
Receptacle With Ease.

A New York man has devised a syphon
particularly for the purpose of remov-
ing cream from milk, which it will do
expeditiously, no matter what kind of
receptacle the milk is in. The syphon
comprises an enlarged chamber with
two straight pipes diverging from it,
one of them longer than the other. At
the top of this chamber is a rubber
tub. To remove the cream a cup is

placed at the side of the pitcher or bot-
tle containing the milk. The syphon is
then placed in position with the short
leg in the milk bottle and the long leg
in the cup. By squeezing the rubber
tub the cream is sucked up and pump-
ed into the cup. It is necessary, of
course, to watch the line of cream so
that the pumping can be stopped as
soon as it is all removed. This method
is a big improvement in skimming the
milk with a spoon, a proceeding which
cannot be done if the liquid is in
bottles.

with plumes. The wedding presents
were numerous, beautiful and useful.
After the wedding supper Mr. and Mrs.
Jacobson left for a short bridal trip.
On their return they will be at home to
their many friends at their residence,
Head street, Victoria.

ment, Fifty Years After, verse, Ed-
win Davis Schoonmaker.

ECZEMA AND WHAT
IS DONE TO CURE IT

Desperate Efforts, Disheartening
Failures and Final Success.

Eczeema is a skin affliction to which men
and women alike are subject, from the first
to the last day of their existence. It may
occur as a single tiny spot, appearing and
disappearing with each change in general
health or present only at certain seasons;
at the other extreme, the whole body may
be involved in a burning eruption. The
condition may gradually arise through the
neglect or improper treatment of lesser
troubles or an apparently healthy skin may,
in a single day, become a mass of eczeema.

But whatever the form of the affliction, the
detracting itching, burning, scaling and
crusting, serious disfigurement and the
constant dread that the eczeema will become
chronic, make a speedy cure the aim of every
sufferer. Unfortunately, such a cure is not
always readily obtained. The most skilled
physicians are often at a loss and even hospitals
are forced to discharge the patient as incur-
able. Then a wide variety of remedies are
resorted to, many perfectly harmless and
equally ineffective, others so offensive to
every sense that, were it not for the relief
they are supposed to afford, no person of
refinement would tolerate them for an instant.

To such sufferers, discouraged by repeated
failures of even these heroic methods, the
instant relief afforded by the first bath with
Cuticura Soap and gentle application of
Cuticura Ointment is almost magical. They
stop the itching and burning at once, make
sleep possible and, in most cases, point to
a speedy cure. So pure and sweet are Cuticura
Soap and Ointment and so free from every
substance of a disagreeable or harmful nature
that they can be used without hesitation on
the youngest infant or tenderest skin. Be-
sides, they are most economical and the treat-
ment often sufficient for the treatment of
even the severest cases.

In proof of the efficacy of the Cuticura
Remedies it will be enough to quote here a
single letter, from Mrs. Edward Nanning,
11 Lansing Block, Watertown, N.Y.: "Four
years ago I suffered with a terrible eczeema,
being a mass of scabs from head to foot and
for six months confined to my bed. During
that time I suffered continual torture from
itching and burning. After being given up
by my doctor, I was advised to try Cuticura.
After the first bath with Cuticura Soap and
application of Cuticura Ointment I enjoyed
the first good sleep during my entire illness.
I also used Cuticura Resolvent and the treat-
ment was continued for three weeks. At the
end of that time I was entirely cured and
have felt no ill effects since. I would advise
any person suffering from any form of skin
trouble to try the Cuticura Remedies, as I
know what they did for me."

Cuticura Soap, Ointment, Resolvent and
Pills are sold by druggists everywhere. Patent
Drug & Chem. Corp., sole props., Boston,
Mass. Mailed free, on request, latest 32-page
Cuticura Book, a guide to the speedy and eco-
nomical treatment of skin and scalp affec-
tions, from infancy to age.

LECTURE TO FRUIT
AND FLOWER GROWERS

R. M. Winslow, Provincial Hor-
ticulturist, to Speak on
Interesting Subject

The first lecture by R. M. Winslow,
provincial horticulturist, before the
members of the Victoria Florists, Nur-
serymen and Gardeners' Association,
and under the auspices of the associa-
tion, takes place at the Broad street
hall next Tuesday night, when the sub-
ject of the address is to be "Common
garden pests and how to fight them."

Admission is free, the whole arrange-
ment being by the association, the man-
agement committee of which has ob-
tained from the department of agricul-
ture co-operation and permission for
Mr. Winslow to give his address.

Henry Callow, secretary of the asso-
ciation, is in charge of the affair and
believes the growing interest in fruit-
growing, floral culture, etc., is such that
a very large audience indeed will as-
semble Tuesday night next. He states
that the subject being one of para-
mount interest to all connected with the
fruit and floral business, with and favor
with the growers. Perhaps the lecture
will be followed by others on later
dates, when the provincial horticultur-
ist can arrange another subject of
equal interest and instructiveness.

IRON CLEANER

Implement Rubbed Over Oiled Pad
and Piece of Corrugated Metal.

An effective cleaning and polishing
device for sad-irons has been designed
by a New Jersey man. It consists of a
triangular box in two parts and large
enough to permit of the free movement
of the iron within its boundaries. In
the bottom of one side of the box is a
felt pad, which is saturated with oil.
On top of this is laid a piece of fabric

sufficiently porous to allow of moisten-
ing from the lower pad. In the other side
of the box is a piece of corrugated
metal. To clean an iron the implement
is rubbed over the oil-soaked cloth till
the rust on it is softened. It is then rub-
bed over the corrugated metal and the
surface cleared of grit as far as the
corrugations will do this. The final
polishing is done with a dry flannel
cloth. The box is made with the two
parts hinged so that they can be folded
up when it is not in use and will not
take up so much room.

sufficiently porous to allow of moisten-
ing from the lower pad. In the other side

NEGROES ANXIOUS TO REACH ALBERTA

Do Not Take Kindly to Examination by Officials at Emerson

(Special to the Times.)
Emerson, Man., March 22.—The special train carrying negroes for points on the Grand Trunk Pacific near Edmonton, arrived here early this morning and contrary to expectations was permitted to pass the boundary unchallenged. The train is now being held while a rigorous inspection by medical officials of the Dominion government is in progress, this being the only ground on which individuals of the party can be barred but they are of good physique, have the necessary funds and will probably almost all pass examination.

"We are but the advance guard," said one of their number, "and if the new country is up to the representations of the agents several thousand more will follow this summer and fall."

The medical inspection here will take two days to complete. It is most comprehensive in character. Up to noon one or two men had been rejected as unfit and will be deported.

The negroes are in a surly mood and object strongly to the personal examination, but no open trouble is expected as officials have a strong force on hand. Their effects consist of mules, horses, breaking ploughs, tents and buggies. They are determined to get on the land as early as possible, and on arrival at Edmonton will take the trail for Athabasca Landing, and at once start spring work.

Three Turned Back.

Gretna, Man., March 22.—A trainload of stock and effects belonging to the party at Oklahoma negroes, who passed across the boundary at Emerson, reached here from the south to-day and was stopped for examination. The three men in whom the train was in charge were examined and declared unfit by Dominion officials. They will be sent back to the States. Meanwhile the trainload of stock will be cared for here pending the arrival of members of the party from Emerson to take charge.

MOBILIZATION

OF U. S. TROOPS

(Continued from page 1.)

a protest would be regarded as undiplomatic, inasmuch as the troops are in American soil, and must remain on American soil until congress shall otherwise direct.

President Taft repeatedly has assured the Mexican ambassador, Señor De La Barra, that the Mexican government need feel no alarm over the movement of the troops. He has sent

the same assurance to the City of Mexico.

To personally assure the Japanese ambassador that the present relations between Japan and the United States are entirely satisfactory, President Taft invited Baron Uchida to call at the White House this afternoon. The president wished to inform the ambassador that there was no ground for the belief that the present military manoeuvres on the Texas frontier were unfriendly to the Japanese nation, but that the immediate cause for the mobilization was the apparent danger of a crisis in Mexican internal affairs.

After President Taft's conference with Japanese Ambassador Uchida today, the cabinet was in session for three hours discussing the Mexican situation and the talk of the president with the Japanese diplomat. Later the president and Robert Bacon, ambassador to France, discussed an arbitration with France and a similar convention with Great Britain, both of which, it is hoped, may be negotiated within President Taft's tenure of office.

Diaz May Take Field.

El Paso, Texas, March 22.—Optimism that the end of the Mexican revolt is near, which was rampant here yesterday, has paled and almost disappeared today through the failure to receive any message promising peace from Mexico city. The impression here now is that Diaz has refused to discuss any proposals until the rebellion is over, and both revolutionary sympathizers and federalists think it looks now like a long hard fight to a finish.

To add to the depression in Juarez, the city evidently expects an attack. One Mexican federal officer here asserted to-day that President Diaz personally will take the field if his cabinet insists upon negotiating with the rebels.

To Disperse Bandits.

Austin, Texas, March 22.—Two companies of Texas rangers were ordered to Chisos to-day to disperse 300 Mexican outlaws who, under the guise of being revolutionists, are raiding American ranches and levying tribute of cattle and horses.

The Rangers moved at the order of Adjt.-General Hutchins, who is co-operating with the United States cavalry troops on the border. The bandits have threatened to sack the towns of Chisos and Terlingua.

Leaders Disappear.

San Diego, Cal., March 22.—Generals Leyva and Berthold, of the Mexican rebel army, are not advertising their whereabouts. Just when they disappeared cannot be told, because, owing to the conflicting reports from the border, unverified rumors about them having been received all this week. But at the brigade headquarters of General Bliss in San Diego, it is officially stated that the two rebel leaders are not at Mexicali or at Tecate, or in the neighborhood. It is not thought here that they have quit fighting and the idea is gaining ground that they are withholding a big force of men somewhere to annihilate a larger body of Mexican soldiers.

The big command that was supposed to have left Ensenada last week under Col. Lajol has never been heard from and may be doing the same sort of reconnoitering that Berthold and Leyva are.

—Just a few days left to buy lots in Esquimalt. Bell Development Company, Limited, 620 Johnson Street.

FAILURE OF BANK BEING INVESTIGATED

District Attorney Hopes Some of Officials Will Shed Light on Affairs

(Times Leased Wire.)
New York, March 22.—In the hope that some of the officers of the Carnegie Trust Company will "squeal" as to the way in which that institution was looted, the indictments returned by the grand jury, it was learned today, are being held up by the district attorney's office.

William J. Cummins, who was indicted yesterday for complicity in the alleged frauds, to-day still asserts his innocence and proposes to seek a court order for the inspection of the grand jury minutes when his case comes up March 3.

As reason for the holding up of the indictments voted, it is said, that the grand jury is trying to learn how the officials of the Carnegie Trust Company, the Washington Savings bank and the Northern bank of New York always knew in advance when the bank examiners intended to make those institutions a visit.

It is believed that when the cases come to trial District Attorney Whitman will make great use of the recent charges of Jos. Robin, convicted president of the Northern bank, and that big financiers may be drawn into the expose.

NATIVE POLICEMEN

LOSE THEIR LIVES

Seventeen Perish on Trip With Administration in Jungle of Papua

Melbourne, March 22.—Further news received from official sources in Papua show that the party who aided Mr. Staniford Smith, the administrator, in his explorations in the interior met with many adventures in the course of their journey.

The expedition cut their way through three hundred miles of dense jungle, and for five days were without food or fire, their whole sustenance for many days subsequently being sage roots. Rafts containing provisions were lost on the Strickland river and seventeen native police in charge thereof met their deaths. Mr. Smith, who suffered from the privations of the journey, has recovered from the effects already. He has made some discoveries of considerable value.

"LADIES WEAR" STORE

Special Showing of Satin Suits and Coats

Dame Fashion has issued her mandate that she who would have her wardrobe complete for Spring 1911, must have therein satin, in a suit or coat. Those we show are, strictly a la mode, and their attractiveness is greatly enhanced because of the wide braid trimming, fancy fastenings on coat and white linings.

CHARGE AGAINST MISSING BANKER

Evidence Will Be Submitted to the Grand Jury at Portland

(Times Leased Wire.)

Portland, Ore., March 22.—For the purpose of securing an indictment against F. N. Meyers, missing president of the Mount Scott bank, District Attorney Cameron said to-day that he was preparing evidence to place before the jury to back a charge that Meyers accepted deposits knowing the bank to be insolvent. The grand jury begins its sessions to-morrow.

The deposits are said to have been made a day before State Bank Examiner Wright closed the institution.

The charge against Meyers in connection with the Italian-American bank will also be placed before the grand jury for action, according to Cameron.

Detectives who have been searching for Meyers with a warrant for his arrest since last Thursday have found no trace of him.

"There is little doubt in my mind but that Meyers is hiding in Portland," said Prosecutor Cameron.

SENTENCE COMMUTED.

Washington, D. C., March 22.—President Taft yesterday commuted the sen-

tence of Thaddeus Potter, of Portland, Ore., who was convicted of complicity in a conspiracy to defraud the government of public lands. The governor of Oregon, many lawyers, and Francis J. Heney, who prosecuted him, recommended clemency for Potter. President Taft commuted his sentence to a fine of \$50 "because he aided the state in the prosecution of more culpable offenders."

PROTECTING FORESTS IN PACIFIC STATES

Rangers Will Be Placed in Field Earlier Than in Previous Years

(Times Leased Wire.)

Portland, Ore., March 22.—On account of the deficient precipitation in western Oregon and Washington, forest undergrowth is drying rapidly and it may be necessary to send fire rangers in the field in May, instead of July, when forest fires usually begin.

According to reports reaching the forestry officials here, timber in Idaho, the scene of last year's big forest conflagration, is well protected by snow so far.

During the winter, the federal and state rangers have prepared for this year's fight against fires, and it is believed that big blazes will be prevented to a large extent during the coming summer.

Officers of various forest fire associations are sending letters to loggers requesting them to burn up all choppings near standing timber as soon as possible.

BOOMING BELLA COOLA.

Eastern Speculators Turning Their Attention to Land-Selling in This Province.

Eastern Canadian newspapers just to hand contain large advertisements setting out the advantages of Bella Coola farming land, which is offered at \$5 or acre, in the Tatla Lake district. It is said that many settlers are going in the country, which is known to be one of the best agricultural sections of the whole province.

Bella Coola has long been known as one of the best locations for the terracing of a railway. It is situated at the head of a long arm of the sea and is said to possess superior advantages as a port. The wide publicity which is now being given to opportunities for

settlers in British Columbia should result in a considerable influx of people the coming spring.

CANADA'S PART IN EMPIRE FESTIVAL

Attractions at Crystal Palace
Described by Representative
of Weekly Journal

The festival of Empire at the Crystal Palace, postponed from last year owing to the death of King Edward, will be, next to the coronation of King George, the event of the year in London, says Canada. It has gained, and not lost, by the postponement. The Imperial note is to be struck even more distinctly than it would have been last summer, and on that account the festival will appeal with all the more insistence to overseas visitors, and not least to Canadians, whose country is to figure prominently among its features.

The British government have, for the first time since 1861, given their official patronage to the festival, the profits from which will be devoted to the King Edward VII. hospital fund.

While the Imperial all-British exhibition within the palace itself will be highly interesting, the grounds will probably attract more of the attention of the visitors. Among the features there will be six palaces of the chief Overseas Dominions, costing over £100,000, in the form of the parliament buildings of each. These will be two-thirds of the actual size, and will contain exhibits showing the scenery, produce and industries of each. The model of the Dominion parliament buildings at Ottawa, which the Canadian government is providing, is 350 feet in length by 190 feet in width, and is costing no less than £70,000. When a representative of Canada visited the palace on Monday, and (under the guidance of H. W. Matthews, the surveyor and business manager, and Allan Green, the press manager), inspected the progress which has been made with the constructive work, he found the Canadian pavilion already far on the way to completion, and giving promise of being a building in every way worthy of the Dominion.

These palaces will be linked together by what is called "The All-Red Route"—an electric railway a mile and a half long, on which visitors will be conveyed in observation cars in comfort, even in wet weather, through scenic representations of the British Empire at work and play, the construction of which is to cost £60,000.

The train will start from the pageant station, and passes along by the main terrace. The first stopping place is the Parliament Buildings, Newfoundland, where passengers will alight and inspect the exhibits, spotting trophies, paper-making and so forth, of the Newfoundland government. Rejoining the train, they will pass through the working industries of Newfoundland, the first view on the right being that of the harbor of St. John's, with its shipping and whale boats at anchor. Immediately opposite will be a reproduction of Colling's cave, Newfoundland, illustrating the cod fishing industry; on the quay will be men engaged in the lobster and oil trade.

Next they will enter the Canadian section, with the salmon fishery, the men cleaning and flaking the fish. Then they will pass through an orchard in full bearing, with men and women picking and packing the fruit, and on through the great wheat-baring districts of Canada, with the men harvesting and threshing. This reproduction of actual life will be over 300 feet in length. There will also be a cattle ranch stocked with live animals. This will bring them to the Canadian railway station, where they will alight and enter the Dominion Parliament Building, in which will be housed the largest and most complete collection of exhibits the government has ever brought together. Rejoining the train, they will pass through a mountain cutting into the wharfedale of Vancouver harbor, which will be a scenic reproduction of that port, some 200 feet in length.

After that will visit a Malay village, a Jamaica sugar plantation, the tea plantations of India, the vineyards of Australia, the geysers of New Zealand, a Maori village, and the gold and diamond mines of South Africa. The exhibits in the various government buildings will include thirty tableaux graphically illustrating what British settlers had to contend with in the early days, and how the history of the Overseas Dominions has been made.

The pageant of London and the Empire, which is being organized and controlled by Frank Lascelles (the pageant master at the Quebec tricentenary celebrations and the South African pageant), will be presented in the most picturesque of settings in the grounds, in front of a gigantic stand which will seat 10,000 persons. It will be in four parts, illustrating the history of London and the Mother Country, and the founding of the Empire. The fourth part will be essentially Imperial, and will be taken part in entirely by visitors from the Overseas Dominions. Canada will be represented, possibly, by the rejoicings at confederation, though a second scene is under consideration. Many of those who took part in the tercentenary pageant on the Plains of Abraham have volunteered their services for this scene. The finale will take the form of a masque of Empire, in which nearly 4,000 people will appear at the same time. Of the 15,000 performers in the pageant, 12,000 have already been enrolled.

The King and Queen will be present at the first of the series of Empire concerts on May 12. During one week Canadian music will be rendered by Canadian singers.

Other attractions of the festival will be Empire carnivals, naval and military tournaments, and battles of flowers.

The hospitality committee, under the chairmanship of Sir Godfrey Lagden, has arranged an attractive hospitality scheme for the convenience of Overseas visitors. A bureau has been established at the headquarters of the festival,

Empire House, 175 Piccadilly, London, W., and Rockville, formerly belonging to Sir Joseph Paxton, the builder of the Crystal Palace, and adjoining the grounds, is being fitted out as a club, of which Overseas visitors will be enrolled as honorary members. In addition to its beautiful gardens, it will have reception rooms, lounges and tea-rooms, and receptions, garden parties and other meetings will be held, at which distinguished men belonging to both the Mother Country and the Overseas Dominions will give addresses. Tours are also being arranged by the committee to all parts of the United Kingdom in connection with the festival, which will open in May and close in October.

ANTI-ALIEN LAWS IN CALIFORNIA

Senate Passes Bill Prohibiting
Them From Holding Land
in the State

Sacramento, Cal., March 22.—The first important action on legislation relating to aliens was taken by the legislature yesterday in the passage by the senate of a committee substitute bill prohibiting the holding of land by aliens. The vote was 29 to 3.

Individuals and corporations the majority of whose stock is held by aliens, are included in the provisions of the bill. Land now held may be retained, but it may not be sold, bequeathed or inherited. Aliens acquiring land may hold it for a period not to exceed five years, at the end of which time it must be sold by the district attorney. The last provision applies only to inheritances. The measure is less stringent than several of those from which it was drawn, one of which prevented the leasing of land by aliens and the other provided for their segregation in secluded quarters in municipalities.

There was much talk of the possibility of war with Japan in the debate on the bill. "We must protect our own sons and daughters, regardless of the attitude of Japan," said Senator Sanford (Democrat). "There are rumors of impending war in the newspapers, but I do not see why they should affect us in this section. Two hundred thousand acres of land are owned by Japanese in the state of California, yielding annual profits of \$10,000,000 per year. At the present rate all the remaining agricultural land in the state will be taken up by Japanese within the next ten years."

Senator Larkin also pointed out what he believed to be the danger of Japanese ascendancy in the United States. "We must not lose sight of the fact," he said, "that every male Japanese is a trained soldier."

Senator Wolfe pointed out that the bill affects not only Japanese, but that it refers to "certain classes," including Hindus and Chinese.

Nerves Are Exhausted

And Nervous Prostration or
Paralysis Are Creeping
Steadily Upon You

DR. CHASE'S NERVE FOOD

You hear of people suddenly falling victims of nervous prostration or some form or paralysis. But when you get all the facts of the case you find that they have had months or years of warning.

They haven't slept well. There has been frequent attacks of nervous headache. Digestion had failed. They have been irritable, easily worried and excited and have found memory and concentration failing.

Had they but known that these symptoms tell of exhausted nerves or had they realized their danger they would have restored the feeble, wasted nerves by use of such treatment as Dr. Chase's Nerve Food.

This great restorative treatment cures by forming new, rich blood and by rebuilding the wasted nerve cells. No medicine is more certain to prove beneficial, for each dose adds to the system a certain amount of rich, red blood.

Nervous diseases come on slowly and can only be overcome by patient and persistent treatment. Prevention is always better than cure, and for this reason you should endeavor to keep the system at high water mark by using Dr. Chase's Nerve Food at the first sign of trouble. 50 cents a box, 6 boxes for \$2.50; at all dealers or Edmanson, Bates & Co., Toronto.

The make of gas in England, Scotland and Ireland during 1910 was 129,067,723,000 cubic feet, as compared with 194,464,583,000 in the previous year and this was distributed amongst 6,501,273 customers.

BIOGRAPHY OF A WAR CORRESPONDENT

Life of Sir William Howard
Russell Sketched by Re-
viewer of Book

Four years ago Sir William Howard Russell, one of the famous war correspondents of the world, died. His biography was written by John Black Atkins, another journalist of note, and has just been published. A reviewer in the Observer says of him:

"What Russell did as one of the historic persons of his age is very well known. But we now realize fully how he did it, and what manner of man he was. In his private correspondence we live all his wars over again. When he was sent out to the Crimea at the beginning of 1854 no one foresaw the sequel. Delane said: 'You will be back at Easter, depend upon it, and you will have a very pleasant trip.' When Russell reached the front he found an army tattered, starving, sick, not sinking under the arms of the enemy, but perishing in mud and snow, as a result of national mismanagement and neglect at home. Then the wrath of God stirring in his heart made him a great man and won his immortal honor. He had that fixed feeling which inspires in a crisis every journalist who is worth his salt: 'I can't be silent, and I will not lie.' Yet even when he spoke out and was accused of exaggeration, he had not told all. On January 17, 1855, he wrote from Balaklava to Delane:

"I cannot tell the truth now—it is too terrible. As the colonel of a Dragoon Regiment said to me the other day, 'If we put all our charges into the best stables in England now, we could not save them. They must die.' And so of the warm clothing for the men—it comes too late."

Russell saved the remnant of the army, went far to rescue his country's cause, destroyed an incompetent ministry and did as much as anyone to make "The Times." But to do these things he had to pass through a storm of obloquy and misunderstanding. He was deliberately exposed to every kind of inconvenience and hardship, and he paid to the last farthing the price of his fame. When we read his swinging, galloping narratives, full of ease, power, passion and veracity, elastic, irresistible, we agree with Mr. Atkins that better work by a war correspondent in the field has never been done nor is likely ever again to be done. But the wonder only grows when we reflect upon the difficulties under which his dispatches were written.

The rest of his achievement is quickly summarized. Amidst the madness of the mutiny he kept his head, and resisted the tendency of our own people to meet horror with horror. He humanized English feeling again, and all men now know that he was no sentimentalist in this, but a wise and steady statesman. In the American civil war he infuriated the North by his account of Bull Run, yet his incorrigible veracity forced him to swing English opinion gradually against the South, and when he was refused permission to accompany the army of the Potomac, he left America amidst the execration of both sides. When the needle-gun was first invented he had understood the importance of the new invention at once, and witnessed at Sadown the tremendous vindication of his judgment. He took a far sounder view of the probabilities of the Franco-German war than Delane did. But his best days as a war correspondent were over under the new conditions, and in speed of transmission he was beaten by Archibald Forbes and others again and again. The reasons were mixed. He had a very responsible reputation to sustain, and at fifty he could not equal the physical energy and alertness of a war correspondent who were over under the new conditions, and in speed of transmission he was beaten by Archibald Forbes and others again and again. The reasons were mixed. He had a very responsible reputation to sustain, and at fifty he could not equal the physical energy and alertness of a war correspondent who were over under the new conditions, and in speed of transmission he was beaten by Archibald Forbes and others again and again. The reasons were mixed.

Added interest will be lent to the publication from the fact that Sir William is a cousin of William Atkins of the customs department in this city.

RAILWAY REGULATIONS.

Olympia, Wash., March 22.—Governor Marion E. Hay signed yesterday the "full crew" bill, and now has acted on all the bills passed by the recent legislature. The full crew bill, which was bitterly opposed by the railroads, requires that crews of five men be placed on all trains of more than 20 cars and that conductors be assigned to light engines.

Before signing the bill Governor Hay heard the arguments of the railroads against the bill and those of the labor leaders in its favor. The bill is similar to one enacted by the Arkansas legislature and recently upheld by the Supreme court of the United States.

DOCTOR'S DEATH.

New York, March 22.—Dr. Edward F. Ashley, a bacteriologist, died on Swinburne Island, in New York harbor, yesterday, a martyr to his fight against the entry into this port of cerebral spinal meningitis through infected Greek immigrants. Inoculated in handling the cases, he became ill on Sunday, and was treated with serum by Dr. Simon Flexner, its discoverer. Dr. Ashley had been assisting Dr. A. H. Doty, health officer of the port, for about nine months.

PEACE RESTORED.

Dr. Bertrand Will be Installed Permanent President of Honduras.

Washington, D. C., March 21.—Practically all formalities incident to the successful consummation of the peace arrangements between the government and revolutionary forces of Honduras have been completed with, and the people of that country, so recently in the throes of serious trouble, are about to see something like permanent peace. This was the tenor of official advices received by the state department yesterday. With all obstacles removed it is expected that Francisco Bertrand

Westwood Farm Subdivision

THE tramline which the B. C. Electric Railway now propose to construct runs through this property with stopping station on it. There is plenty of rich land, good springs and lovely building sites. It is close to church and school, and quite close to Prospect lake, and is in a beautiful, sunny and cheerful location. When the line is constructed it will be only a few minutes' run to town. You ought to consider this. You can buy from six acres up to small cost, compared with city lots. Make a delightful home with a nice garden. Keep your own cow and poultry. You may like the country better than living in the city, where you are at work all day. It is a change. We consider this property a splendid investment and we are of the opinion that it is only a question of time before you would nearly double your money. Prices, \$350 per acre and up.

COWICHAN BRANCH OF NAVY LEAGUE

Officers Elected at Annual Meeting at Duncan—Public Gathering Proposed

(Special Correspondence.)

Duncan, March 21.—The annual general meeting of the Cowichan branch of the Navy League was held in the Knights of Pythias hall on Saturday afternoon with a good attendance of members. The report of the year's work showed that the Cowichan branch has 140 members and a good financial standing. Capt. C. Phillips-Wolley, vice-president of the Dominion League, who was present, referred with great satisfaction to the reports he had received by letters and in other ways from leading men of both political parties. The question of holding a public meeting, if possible under the auspices of the Knights of Pythias and all the other societies, was discussed and favorably commented upon by the present, and arrangements for this meeting are to be left largely in the hands of John Evans and the Knights of Pythias if they will undertake it. The election of officers resulted in the following being chosen:—Hon. president, Major Barnes; vice-presidents, John Evans, ex-M. P. P.; Col. Hobday, W. H. Hayward, M. P. P.; Canon Leakey, and F. H. Maitland-Douglas.

A small executive committee was elected, with power to elect a country district committee whose work it will be to stir up enthusiasm in their own particular districts, and when in town to sit with the members on the executive committee. Messrs. Brettingham, F. H. Price, H. D. Morten, Maj.-Gen. Rice, Alex. Maclean, J. E. Hall was re-elected hon. secretary-treasurer and the meeting adjourned.

John Elliott and John Gay, employed at the quarry, were brought before Justices of the Peace A. Blythe and W. C. Duncan charged with supplying liquor to Indians, and were each fined \$50. A kioochman and Indian Michael were fined \$15 each and costs for being drunk.

A dinner in honor of A. H. Lomas was given at the Troubadour hotel by a number of local men. Twenty-five sat down to dinner. Mr. Lomas has left Duncan to undertake the management of the Lakeside hotel, Cowichan Lake.

The speakers included F. H. Price, K. Duncan, C. Clegg, W. H. Hayward, J. Hirsch, J. M. Campbell, W. Saxton-White, A. H. Lomas, W. Dwyer.

The local football team were defeated by the Victoria West team on Saturday afternoon last by 4 to 1.

NEW POLICE CHIEF

Prince Rupert, March 21.—Chief McCarrell, who has vacated the office of chief of police of the city, has left Prince Rupert. The position has been offered W. H. Vickers, formerly chief of the provincial force. Mr. Vickers has tendered his resignation as assessor in the provincial office to the department at Victoria, and upon the acceptance of it will assume the duties of the office. In the meantime Sergeant Phillipson is performing the duties of chief of police.

The resignation of Chief McCarrell follows as a result of dissatisfaction felt on the part of the police commissioners with the way in which that officer was administering the affairs of his office.

In accepting the office of chief of police, Mr. Vickers is going back to work in which he spent many years as a member of the provincial force, training under Superintendent Hussey.

COUNTY COUNCIL FAVORED

New Westminster, March 21.—Several important matters came up for discussion at the regular meeting of the Burnaby board of trade. The pros and cons of the proposed new water system for Burnaby were discussed, and the views of the council were supported.

T. B. Morrison, as chairman of the transportation committee, reported that the management of the B. C. E. R. had promised a reduction in the fare between Vancouver and New Westminster limits. This will be done during the next sixty days.

PUBLICITY CAMPAIGN.

Chilliwack, March 21.—Acting on the old advice that "if you want anything done, do it yourself," the board of trade of Chilliwack asked the council for a grant of \$500 at the last meeting and the request was responded to by a grant of \$200. More would have been given and the members of the council were quite agreed that money given to the board of trade for publicity purposes would be well spent, but a similar request coming from the hospital board and a call for assistance from the Agricultural society for the building of a caretaker's cottage, made them carefully before the estimates were brought in.

NEW CONCENTRATOR.

Nelson, March 21.—From Silverton comes word that the new concentrator that has been erected in connection with the Van Riel silver lead mine has been completed and has started operations. The necessity for the new concentrator arose from the impossibility of the Van Riel Mining Company securing another long term lease on the Wakenfield mill, which it has operated in the past.

One of the events of last week was the shipment made to the Trail smelter by the Vancouver mine, Sheep Creek. This carload of ore was taken out by Mr. Lompney, who took a lease of the property for a year and a half about the beginning of the year.

Wm. Stewart, mason and laborer, over Terry's Drug Store, Douglas St.

Garden City Heights 18 Lots SOLD IN One Day

The wise people who purchased these lots came to see us directly they had perused our first advertisement. They realized that the Garden City Heights property offered at our low price of \$325 per lot was a snap which must be seized at once. Like Rudyard Kipling's 'Old Millionaire,' in 'The Mary Gloster,' they'll be saying: "I took a chance and I stuck; I took the chances they wouldn't and now they're calling it luck."

Eighteen Lots Only Remained Yesterday

If you want one at the wonderfully small price of \$325, \$50 cash down and \$10 per month for balance of payments, you must see us early as possible to-day. We feel sure there won't be one of these beautiful home sites unsold by Thursday afternoon. Be a success. Make your money work for you with one of these. The new car line will easily double their value, perhaps more than double it.

We have the exclusive sale of Garden City Heights Property. Come here quickly and let us take you out to see it.

NELSON MAY HAVE NEW HOSPITAL

Special Committee Appointed to Investigate Question—Officers Elected

Nelson, March 21.—A special committee was appointed at the annual meeting of the Kootenay General Hospital Association to look into the question of the building of a new wing or of a new hospital in order to meet the rapidly increasing demand for accommodation at the institution which was shown by the lady superintendent to be entirely inadequate to meet the requirements of the district. As was announced last year, the provincial government has promised to donate dollar for dollar in proportion to the sum raised locally, if it is decided to go ahead and build the long talked-of new hospital. It is calculated that it will cost \$60,000 to erect and furnish an adequate building and it was hinted that it may be possible by obtaining a certain proportion of the \$20,000 that would be needed to raise the balance by mortgage.

In his annual report, E. F. Glogot, the retiring president dealt with the steadily increasing demand for accommodation at the hospital, the large average number of patients treated per day at the hospital during the year, the urgent necessity for a larger and more suitable building and the good financial position in which the institution now stands. He paid a tribute to the work of the Ladies' Hospital Aid and to the medical fraternity of the city who had given their services free of charge during the year.

J. M. Lay, the retiring treasurer, presented a financial report which showed that the institution was now practically clear of debt.

The election of officers resulted in a number of new names being added to the list of directors to replace those who have left the city. E. F. Glogot was again elected president and Fred Irvine, J. M. Lay and George Johnston were re-elected vice-presidents, treasurer and secretary, respectively, at the meeting of the new board held after the general meeting.

FIRE AT MERRITT.

Merritt, March 21.—Merritt's first big fire occurred Thursday night when the large rooming-house belonging to Samuel Contango, was burned to the ground with most of the contents. A coal oil lamp upset in one of the upstairs rooms, and before the flames could be extinguished the situation was beyond control. The loss will reach hundreds of dollars. For a time the whole town was threatened.

CITY OF VICTORIA

A complete list of Local Improvement Works, authorized by By-Law, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

Re Subdivisional Plans

Persons desiring to obtain the approval of the City Council to subdivisional plans, are hereby notified to submit said plans in the first instance to the Chairman of the Street Committee, Alderman W. A. Gleason, and the City Engineer.

WELLINGTON J. DOWLER, C. M. C.
City Clerk's Office,
March 15th, 1911.

Fire Prevention

Attention is hereby called to the following provisions of the Fire Prevention By-law, namely:—
"24. It shall be unlawful for any person to deposit any ashes or cause the same to be deposited or placed or permit the same to be or remain in any wooden vessel, or upon the floor of any building or in any place or premises belonging to or occupied by him or her, or others, or in any metallic vessel within two inches of any woodwork or structure, or place, or permit any hay, straw, or other combustible material uncovered within his courtyard or lot of ground within ten feet of any building."

"25. Every owner or occupier of a building shall at all times keep the roof of such buildings free and clear

from moss or vegetable growths and particularly shall in the month of March in each year clear the roof from such growth."

WELLINGTON J. DOWLER, C. M. C.
City Clerk's Office,
Victoria, B. C., March 17th, 1911.

STREET CLOSED

Notice is hereby given that Fort street between Yates street and St. Charles street will be closed to traffic until further notice.

APPLICATIONS

Applications, accompanied by testimonials and references, will be received at the office of the undersigned until Friday, the 24th inst., at 3 p. m., for the position of clerk in the Treasurer's Office. Applicants with a knowledge of book-keeping preferred. Salary to be fixed by the Council. Information as to duties of position will be furnished by the City Comptroller.

WELLINGTON J. DOWLER, C. M. C.
City Clerk's Office,
Victoria, B. C., March 15th, 1911.

VETERANS ORGANIZE.

Prince Rupert, March 21.—That Prince Rupert has a long list of residents who have served with colors in various campaigns of the Empire in the scattered parts of the world, was shown at a meeting called to form a branch of the Veterans' Brigade in which all who have seen active service are eligible.

J. H. McMullin presided. The principal business was the election of officers to be followed at future meetings. The officers are: Captain J. N. Hamer, captain; J. H. McMullin, first lieutenant; R. W. Cameron, second lieutenant; W. Gudson, secretary; Dr. Tremayne, Fielding, Ed. Clarke and F. B. Hoffman, executive committee.

AUTO FATALITY.

Vancouver, March 21.—A coroner's jury made a careful inquiry concerning the death of C. H. Evans, whose skull was

fractured by being struck by an auto driven by Mr. H. Tucker on Wednesday evening on Pender street, near Broughton. The verdict stated that death was due to the accident, the opinion being expressed in a rider that the driver of the auto should have slackened his speed to a greater degree at the point where the accident occurred and also that he should have applied the emergency brake of his machine.

MUNICIPALITY OF SAANICH

Surveyors will please take notice that all plans of subdivisions to be submitted to the council must be in the hands of the undersigned not later than Thursday previous to statutory meetings.

J. R. CARMICHAEL, C. M. C.

Fruit Trees!

Apples, Pears, Peaches, Plums, Cherries, Apricots, Quinces, Walnuts, Filberts, Grapes, Currants, Gooseberries, Strawberries, etc., in all the leading and most desirable varieties, both for the family garden and the commercial orchard. ALD. PEDEN'S FORESHORE SCHEME

Plans for Sea-Wall and Road-
way Being Prepared by
City Engineer

ALD. Peden, chairman of the cemetery committee of the city council, has lost no time in completing the preliminaries in connection with the big foreshore improvement and beach drive scheme, which he initiated shortly after taking office at the beginning of the year, and which at the time was outlined in these columns.

The plans, which are now being prepared by the city engineer and which will shortly be ready for presentation to the board of works, call for an expenditure of approximately \$120,000, this providing a modern sea wall with a fine fifty-five foot roadway. This marine drive would provide for direct connection between Hollywood Crescent, where the latter joins St. Charles street, and the Dallas road near Clover Point.

If the plans which have been prepared are approved the wall will extend a distance of 3,477 feet from a point a short distance west of St. Charles street to Dallas road, where the latter turns from the shore line to meet Fairfield road. The wall will be unlike that now being constructed between Menzies and Montreal street in that it will have a greater width at bottom than top and present a sloping face to receive the wash of the waves.

Ald. Peden's improvement scheme, while elaborate, is declared to be thoroughly feasible; and in view of the fact that some comprehensive scheme of foreshore protection is absolutely essential it is felt that the ratepayers will heartily endorse the by-law providing for the raising of the necessary loan when the same shall be submitted to them.

ASSESSMENT SETTLED.

Final Offer of G. T. P. to City of Prince Rupert.

It is understood that before leaving for the east D'Arcy Tate, of the G. T. P., obtained the sanction of the provincial government to the agreement to be submitted to the council of the city of Prince Rupert in regard to the taxation and other conditions to which the G. T. P. will be subject in the terminal city. The following is the gist of the agreement:

Fifteen thousand dollars a year for ten years, from January 1, 1910, as taxation in the present year.

Proportionate share of local improvement taxes where the railway company's property abuts on to public streets.

The deed to the city of the various park sites and a lease for city purposes of 200 feet of waterfront, as outlined in the previous agreement.

The proposed agreement also provides that within three months of the signing of the agreement, the company will commence work on a permanent station, round house, engine works, and machine shop, to carry them to completion, to continue its pay roll within the city, and within six months to commence the erection of a large first class hotel.

The agreement has to be submitted to the people of Prince Rupert for a vote.

STOLYPIN HAS RELINQUISHED POST

Declares Minister Must Be
Changed Before Russia
Can Improve Navy

St. Petersburg, March 22.—M. Stolypin yesterday afternoon handed over the presidency of the council of ministers to M. Kokovtsov, and notices for the next meeting of the council, to be held March 23, were sent out in the name of M. Kokovtsov, who is now acting premier.

Count Hendrikoff yesterday visited M. Stolypin on behalf of the emperor. At his final audience with His Majesty the former premier discussed affairs of state, and among other things, told the emperor that Russia would never have a good fleet so long as Admiral Voevodsky was minister of marine. The emperor showed great concern over this declaration.

The council of the empire yesterday rejected the proposal to confer the franchise on women.

The rumors of an attempt against the life of M. Korostovetz, the Russian minister to Peking, have proved untrue.

HEAVY DRINKER CURED.

Samaria Cured Him and He Helps Others.

A man who has been released from the awful cravings of drink, and whose first thought is to help others, shows the spirit of true brotherhood and philanthropy. Read his letter:

"The Samaria Remedy Co., Toronto, Ont.:

"Will you please send me book on drink, also circulars relating to your valued remedy for the drink habit. I wish to hand these to a friend who is going to ruin through drink. You will remember that I have taken your remedy, and I find it all you claim it to be. I never think of talking or using strong drink in any way, as all desire for it has left me. I cannot speak too highly of your wonderful remedy. You may use my name in any way you wish in public."

"H. Lilywhite, Bridgen, Ontario."

Samaria Prescription is tasteless and odorless, and dissolves instantly in tea or coffee, or can be mixed with food. It can be given with or without the patient's knowledge. It removes the craving for drink, builds up the system and restores the nerves. Drink becomes distasteful and even nauseous.

Drink is a disease, not a crime. One drink of whiskey always invites another. The inflamed nerves and stomach create a craving that must either be satisfied by more whiskey or removed by scientific treatment like Samaria Prescription. Samaria Prescription has been in regular and successful use by Physicians and Hospitals for over ten years.

If you know of any family needing Samaria Prescription, tell them about it. If you have a husband, father or friend that is drifting into drink, help him save himself. Write to-day.

A FREE TRIAL PACKAGE of Samaria Prescription, with booklet, giving full particulars, testimonials, prices, etc., will be sent absolutely free, and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write to-day.

The Samaria Remedy Co., Dept. 75, 49 Colborne St., Toronto, Canada. Hall & Co.'s drug store, corner Yates and Douglas streets, Victoria, B. C.

SLACK WATER—ACTIVE PASS.
